About Snoezelen®

Rompa® is the UK's leading provider of sensory rooms, with over 35 years of experience creating sensory environments and specialised equipment.

Exclusively offering Snoezelen® rooms, Rompa® designs customisable spaces that enhance sensory experiences tailored to individual needs. These rooms empower users to control their surroundings, fostering independence and providing a calming space for exploration and learning, especially for those with disabilities or learning difficulties.

Snoezelen® Multi-Sensory Environments gently stimulate the senses (sight, sound, touch, smell, and movement) in a controlled manner, supporting individuals with sensory processing challenges, autism, or other developmental condition, giving choice and independence. With decades of expertise, Rompa® has delivered these environments across healthcare, education, and private sectors.

For young people with sensory processing challenges, well-designed sensory environments can significantly improve focus, emotional regulation, and engagement. These spaces are vital for fostering a sense of calm, reducing anxiety, and promoting positive learning experiences.

Snoezelen® rooms are especially valuable for those with learning difficulties, offering a safe and soothing space for exploration and self-regulation. Customised to each individual, these rooms can make a meaningful, life-changing impact. To learn how you can benefit from these environments and access our free design service, contact our team today.

The name Snoezelen® is rooted in the Dutch words *snuffelen* (to sniff) and *doezelen* (to doze or snooze), signifying the calming and immersive nature of these spaces.

Originating in the Netherlands in the 1970s and developed by psychologists Ad Verheul and Jan Hulsegge, Snoezelen® rooms are meticulously crafted to provide soothing and therapeutic environments.

It is worth noting that Rompa® proudly owns the Snoezelen trademark - there are no imitations.

Different types of Rooms

Snoezelen® Sensory Room

Snoezelen® rooms offer a relaxed atmosphere with pleasant surroundings, soothing sounds, captivating aromas, tactile experiences, massage and vibration, vibrosonic sensations, and gentle movement with interesting light effects and comfortable seating allow the user to self regulate by choosing sensations.

1

Sensory Integration

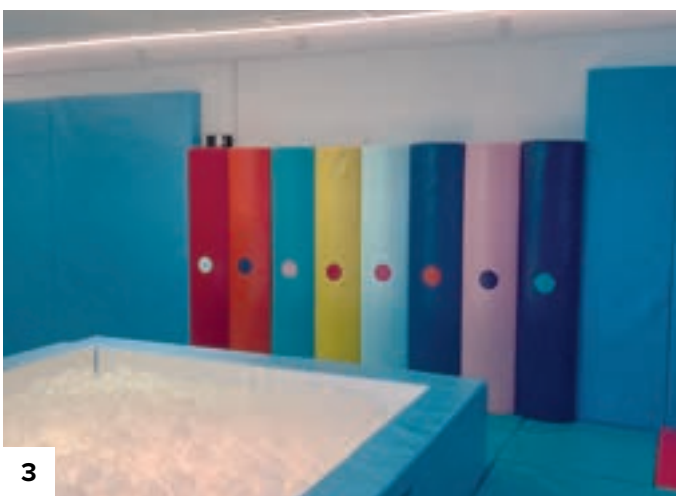

A form of Occupational Therapy utilising sensory experiences from movement, touch, light, and sound to strengthen the user's ability to deal with everyday life.

2

Soft Play

A soft play environment is specifically designed users to have fun, explore their physical boundaries and to release energy in a safe environment.

3

Snoezelen® De-Escalation Rooms

Our custom-made and fully installed facilities offer a safe environment for those who present challenging behaviours and aggressive tendencies and giving them an opportunity to calm, rest, recuperate and recover in a secure and robust environment.

What is Multi-sensory?

Multi-sensory learning is an approach that engages more than one sense at a time to enhance understanding, engagement, and retention. By integrating visual, auditory, kinesthetic, and tactile elements, multi-sensory learning caters to various needs and preferences, making it highly effective for people of all ages and abilities.

Benefits of Multi-Sensory Environments

Enhanced Engagement:

- Engages multiple senses, making activities more interesting and interactive.
- Increases participation and enthusiasm, which is particularly beneficial for individuals who may have varied sensory preferences.

Improved Retention and Understanding:

- Information is processed through various sensory channels, leading to better retention and recall.
- Reinforces memory through repetition in different forms, aiding in understanding and remembering concepts.

Supports Diverse Needs:

- Adapts to the sensory processing patterns often seen in individuals with autism.
- Provides multiple ways to interact with and internalize information, crucial for personalized experiences.

Reduces Anxiety and Overwhelm:

- Structured multi-sensory activities can help create a predictable and manageable environment.
- Helps reduce sensory overload by providing balanced sensory input.

What is Sensory Magic[®] 3

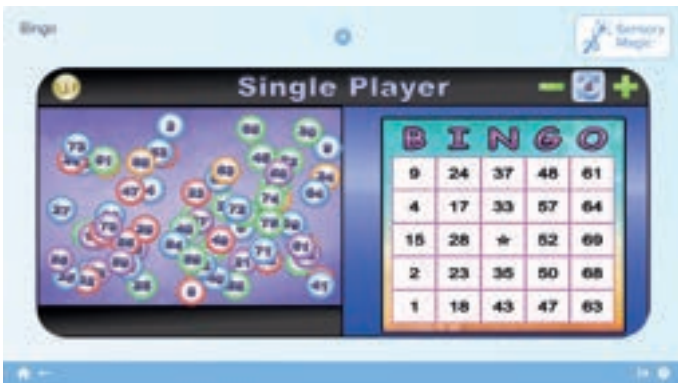

An All-in-one Sensory Solution

The Sensory Magic[®] 3 software has been redesigned and re-engineered to carefully consider the user experience is the best it can possibly be.

Sensory Magic[®] comes pre-installed with

- Snoezelen[®] Room control app
- Meaningful activities
- Assessments & results
- Settings, personalisation and many utilities

We have ensured that the experience fosters independence, choice and control.

Room Control*

As the Sensory Magic[®] experience can be customised to suit individual needs, sensory sensitivity can be provided for.

Meaningful Activities

Our suite of apps offers a diverse range of games and activities tailored to the interests and needs of all age groups, including bingo, quizzes and various other games.

**Activates
the senses!**

**Pre-loaded
with our next
gen software!**

Assessments and Result

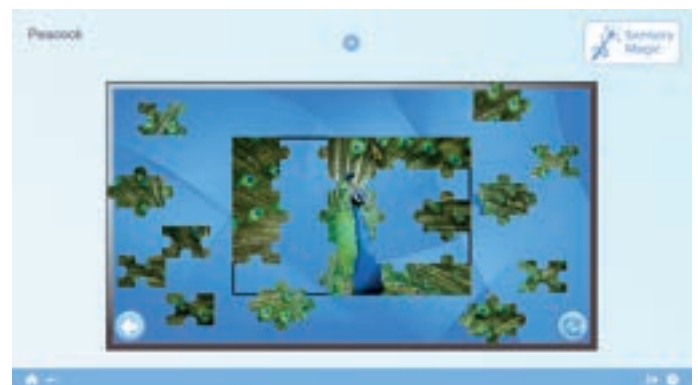

Our Sensory Magic software features profiling assessment tools for sensory development, developed with Professor Lesley Collier, a long-time partner of Rompa. Assessments include: cognitive impairments, self-esteem, Older Adult depression and results feature for all of the assessments.

Relax or reduce anxiety

Sensory Magic[®] 3 is designed to enhance your experience by recording and adapting sessions in a structured way. If you dislike a specific colour, you can easily eliminate it from your session with just one touch.

Settings and Utilities

Designed for personalisation. Change the look of the software; from fonts to colours.

*Compatible with large range of Rompa[®] multi-sensory

Sensory Magic® 3

Sensory Magic® 3 Compact

R523717

68W x 100H x 11cmD

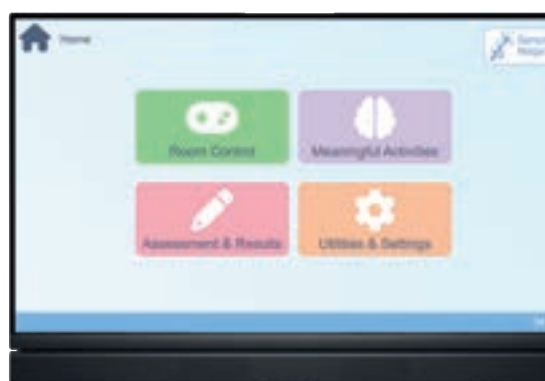

Designed to meet every customer's needs. Sensory Magic® 3 has a easy control of your Snoezelen® environment and features software that can be specifically tailored to each customer's needs. Features include:

- Timed mood lighting compatible with Rompa® Wireless Controllers
- Fully customisable immersive themes through imagery, sound, colours and aroma
- User-friendly touch-screen with simple navigation
- Modern User Interface and hardware
- Wireless control for individual products and entire rooms

snoezelen®

Snoezelen® Multifinity Explorer™ by Rompa®

Create visually stunning infinity effects by selecting from a number of shapes, colours, patterns and speeds. The panel is packed with sound effects and music which makes for a truly exciting multi-sensory experience. With a huge range of effects to choose from! Allows supervisors to match activity to need. Encourages interaction, visual tracking, hand-eye co-ordination and an understanding of cause and effect. Additional large item shipping surcharge.

Features include:

- Over 1500 unique and easily selected pattern combinations
- Select from 8 shapes, 11 colours, 6 patterns and 3 speeds
- With circles, squares, triangles and more for early maths concepts
- Facilitates choice and control
- 3 modes of operation – passive, interactive and music
- Accessible and illuminated push buttons
- Sockets for your own switches

Please specify your colour when ordering.

R524513

115H x 67W x 10D cm

Passive

Sit back and relax whilst watching these mesmerising light shows as patterns change every minute with or without music. An effective way to calm or distract people.

Music

Control the panel using the illuminated push buttons and watch as sound effects and music co-ordinate with the on-screen patterns.

Interactive

Control the colour, shape, speed and pattern of the panel using the illuminated push buttons.

Mirror

The Multifinity Explorer™ is packed with sound effects and music which makes for a truly exciting multi-sensory experience. With a huge range of effects to choose from, the Multifinity Explorer™ also allows you to match the activity to the need, it also acts as a mirror when not in use.

CUSTOMER REVIEW

Amazing item - Incredible activity!

The kids absolutely loved it

Yasmin S., Verified Buyer

snoezelen®

Snoezelen® Colour Command Centre™ by Rompa®

Rompa®'s largest interactive wireless controller. Rewarding and responsive; empowering and engaging. Navigate through a spectrum of colours, patterns and levels of brightness on the large Colour Command Centre. Be amazed as the room transforms as other Rompa® wireless products change colour to match. Change the colour and the brightness of the large display as well as that of other Rompa® products in your room. Unique, in that this is both a Rompa® wireless controller and a wireless controllable product. Additional large item shipping surcharge. Features include:

- 2 modes of operation - passive and interactive
- Different effects such as solid colours, colour fading in and out, lights looping around the display
- Multiple illuminated push buttons at the base and within the display
- Use the panel buttons to select a base colour; then press the on screen buttons to adjust the hues and brightness of that colour
- Sockets for your own switches
- Can be use with a microphone for a sound to light effect to encourage vocalisation

Please specify your colour when ordering.

R524515

115H x 67W x 10D cm

Key features

- Colours fade in / out
- Looping lights
- Different levels of brightness
- 2 modes of operation

Different effects to help you relax

Includes colour fading in and out gently and lights looping around the display area.

Spectrum of colour, pattern, light and sounds

Use the large buttons to select a base colour and add or subtract hues of red, green or blue to create new colours. Plug in a microphone for a sound to light effect to encourage vocalisation.

Learn to play together

The large screen area and number of buttons make the Colour Command Centre™ a great opportunity to work or play with other people.

Learn about colour in an interactive way

With large accessible buttons and an environment that changes with your input - the Colour Command Centre™ is a great opportunity to work or play with other people.

Visit www.rompa.com for more information on our Deluxe Panels.

Deluxe Panels

snoezelen®

Snoezelen® Fireworks Extravaganza™ by Rompa®

Visual, vivid and vibrant. A cracker of a wall feature for all year round! Create visually, vivid and vibrant displays by selecting from a number of patterns, colours and speeds each paired to sound effects. Rompa® appreciates that for some users Fireworks could be associated with being 'too loud and/or, over stimulating' for some users. This panel offers a number of different sound effect themes for a more relaxing or varied sensory experience, for example, water or carnival sounds. Additional large item shipping surcharge.

- With 825 unique and easy to use pattern combinations
- Offers 11 colours, 5 sound effects and 3 speed options
- 5 stunning fireworks effects including Catherine Wheel, Falling Stars, Radiating, Comet and Strobe
- Use passively or interactively
- Accessible and illuminated push buttons
- Facilitates choice and control
- Sockets for your own switches
- Can be use with a microphone for a sound to light effect to encourage vocalisation
- Sound effects and visual effects are closely linked for easier understanding

Please specify your colour panel when ordering.

R524509

115H x 67W x 10D cm

Key features

- 5 fireworks effects - Catherine wheel, radiating, falling, stars, strobe and comet!!
- 5 sound effects
- 825 pattern combinations
- 11 colours and 3 speeds

Visuals that relate to sound

A key edition to the Fireworks Extravaganza™ is how sound effects and visual effects are closely linked for easier understanding and more fun! LEDs light up and move like rockets to the centre of the panel with a whistling sound and explode with a bang.

The Fireworks Extravaganza™ has evolved from a very simple panel to a real fun and engaging entertainment centre giving you the flexibility to tailor the activity to different needs and preferences.

CUSTOMER REVIEW

Fantastic product! My daughter is visually impaired and is very responsive to this, she loves all the different light shows.

Would highly recommend.

Rachel N., Verified Buyer

- Basic colour match
- Range of difficulty levels

Lose yourself in a fun and engaging activity

With its competitive fill the screen mode, children and adults will enjoy making as much noise as possible to fill the panel with light in this light hearted contents.

Lose yourself in a fun and engaging activity

Make the Colour Catch Combo™ accessible to all levels. This gradeability also allows for development of understanding and prolongs use.

Improves memory, colour recognition and motor skills.

CUSTOMER REVIEW

Ideal to stimulate the understanding of cause and effect. This item was purchased for my 13 year old son who has profound learning difficulties. He is stimulated by cause and effect and this item is perfect for this.

It has several settings that can help him to understand cause and effect and the bright colours help keep his attention. We purchased the cube along with this item, which works as a switch to control the colours on the display. I would recommend this item for anyone who is learning cause and effect.

Andrew C., Verified Buyer

Deluxe Panels

snoezelen®

Snoezelen® Sound to Sight Showtime™ by Rompa®

Sounds are turned into a dazzling show of light, colour and movement. The panel responds to both changes in pitch and volume to create an ever changing sensory experience. R524512

115H x 67W x 10D cm

Encourage learning and exploration of sound

The Sound to Sight Showtime™ panel responds to both changes in pitch and volume to create an ever changing, fun sensory experience. Watch music or sound effects come to life as you play them through the panel or try different noises either through shouting, clapping or playing an instrument.

Two microphones for fun turn-taking or follow my lead activities

Learning to make noise is often about mimicking, using both microphone ports provided the Sound to Sight Showtime™ becomes a valuable tool to develop the understanding of sound and vocals.

Key features

- Bring sound to life
- Great for teaching
- Use alone or together
- Fun- fill the panel with a competitive mode.

Lose yourself in a fun and engaging activity

With its competitive fill the screen mode, children and adults will enjoy making as much noise as possible to fill the panel with light in this light-hearted content.

Sounds are transformed into a dazzling show of light, colour and movement!

Snoezelen® Double Bubble Bonanza™ by Rompa®

Combines two Snoezelen® favourites – bubble tubes and wall panels. Bubbles and colour can be individually controlled in each of the two chambers. Be amazed as the bubbles dissipate in one chamber only to burst into life in the other. The panel is packed with sound effects and music which makes for a truly exciting multi-sensory experience. The stunning effects stimulate, empower and engage. Perfect for co-operative play, turn-taking and follow-my-lead activities. Additional large item shipping surcharge.

Features include:

- With 42 unique effects
- With two bubble chambers – the bubbles and colour of each can be controlled independently
- Great for pair work and co-operative activity
- Can be used by one person to promote bilateral movement
- Encourages choice and control
- 3 modes of operation – interactive, creative and music
- With gentle vibration for tactile input
- Accessible and illuminated push buttons to control bubbles and colour
- Can be used with a microphone for a sound to light effect to encourage vocalisation

Two people will be required to wall-mount this panel. Not compatible with Porter 22879. Pump 20601-SPECIAL to be purchased separately.

Weight: approx. 30kg when full

Please specify your colour panel when ordering.

R523483

115H x 67W x 10D cm

Fun and interactive or peaceful and relaxing

A key benefit of having a Double Bubble Bonanza™ is its flexibility. It can be a really fun, engaging, social and interactive panel or it can be relaxing with a constant visual effect, slowly fading colours and gentle sounds mimicking rain, waterfalls or babbling brooks.

Bringing people together

Two independent bubble chambers are perfect for co-operative play, turn taking and follow my lead activities.

Key features

- 42 unique effects
- Bubble control via buttons
- Absorbing/distracting to help calm
- Patterns control bubbles and colour

Stunning visual effects

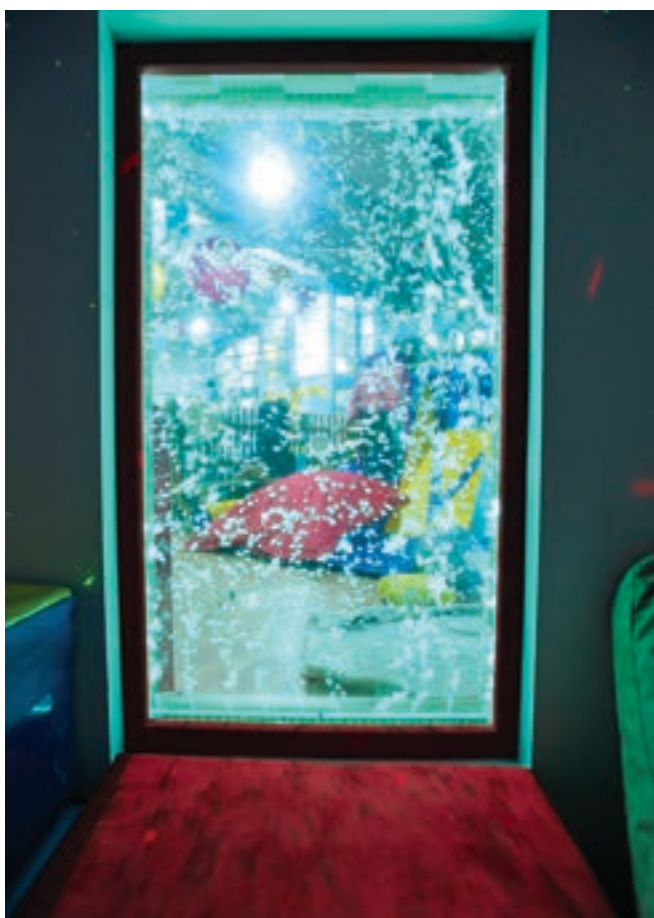

- Slow fade
- Independent fade
- Alternating

Double the bubble, double the fun!
Two bubble chambers in one!

To note: This product requires a Rapid Water Change Pump (20601-SPECIAL) available on page 32

This product can only be installed on a solid wall

Rompa® Wireless Controllers

Rompa® wireless connectivity means many elements of your sensory can change in harmony with each other.

Switches open a world of interaction to individuals who experience restricted movement, help to improve motor skills and help relay information about cause and effect. These devices can be very empowering, allowing the user to control many aspects of their environment at the flick of a switch

Sensory room switches come in a variety of shapes, sizes and types, some even look like soft toys. Whether you need a sensory room switch that reacts to sound, movement or touch, you'll find a switching solution that meets your needs below.

“ **CUSTOMER REVIEW**

Clever piece of technology... We liked the fact that it is wireless... We also like the fact it turns off bubbles too and you can use it like a mini piano.

All in all a really clever piece of kit!

Dawne, Verified Buyer, Bridport ”

Key features

- Break free of wires
- Huge choice of wire-free remote controllers and controllable products
- Empowering and enabling
- No hidden extras required
- Wireless capabilities built into key multi-sensory ranges as standard.

Super Switch - Deluxe 8 Colour Wirefree Controller

The king of switches! Wireless and wonderful! Controls 8 colours!

- With pre-recorded multi-lingual words and sounds (colours, numbers, fun sounds and a musical scale so you can play tunes)
 - Wirelessly change the colours of products
 - Timer facility to adjust the length of time a colour is activated
 - Rechargeable – includes charger which doubles up as a plug if you forget to charge it
 - Customisable - with a USB port so you can add your own sounds
 - Sounds can be removed altogether to avoid sensory overload and to aid individuals who sensory avoid to grade up their tolerance
 - With 9 large, raised buttons to interactively operate multiple products

 - Can be used with Sensory Magic®, Midi and Maxi Bubble Tubes, Light Source, Rompa® Wall Panels, Wireless Spotlight, Wireless Mood Lighting, Wireless Colour Controller and more
 - Additional controls on the underside including LCD display with pre-programmed functions
 - For all ages and abilities
- Integral rechargeable battery included.

R519847

37cm diameter x 12cm height

Wireless Controllers

8 Colour Wirefree Controller

A much simplified version of 19847. Wirelessly controls the colours of many of our products (Wall Panels, Bubble Tubes, Light Source and so on), but without sound, timer facility or LCD display. Incompatible with Sensory Magic®. Includes a charger for the integral battery.

R521006 37cm diameter x 12cmH

Rompa® Wireless Colour Control Bumpas™ – Set of 8

Two of our most popular products combined – Bumpas™ and our 8 Colour Wirefree Controller. Choose the colour of the lights in your room by pressing the corresponding coloured circle of the Bumpa. The high contrast of the black and white adds visual interest. Great for encouraging interaction, understanding of cause and effect, movement, turn-taking and provides a feeling of choice, control and empowerment. PVC. Additional large item shipping surcharge.

R522716 115cmH x 20cmD; each Bumpa 30cmW

Wireless Colour Controller Wall Mat

Press a circle on the wall mat to change the lights of Rompa® products in the room to the corresponding colour. Encourages an understanding of cause and effect, reaching, movement and interaction. A great alternative to mobile controllers in environments where there is a risk of these being thrown, misplaced or stolen. Also meets requirements of infection-control. Other sizes available by special order. PVC - please specify background colour required when ordering. Additional large item shipping surcharge. Non-returnable.

R522867 90W x 115H x 10cmD

Talking Cube by Rompa®

These wireless talking soft play cubes is multi-purpose and has endless educational applicants. It enables the user to control the colours of the sensory environment - throw or drop the cube and change the room colours. Each of the 6 brightly coloured sides has a transparent pocket into which you can add your own pictures, symbols, words or photographs. You can easily customise each cube face with your own pre-recorded message, with your voice! To promote colour recognition, simply roll the cube and listen as the name of the uppermost colour is heard. Make the cube land on the colour blue and be rewarded with the sound “blue!”, throw a green and hear the word “green” and so on. Ideal for developing the understanding of cause and effect, colour recognition, picture recognition, reminiscence, developing listening and motor skills, put dots on the cube for use as a die...the possibilities are endless!

Includes cube, speaker and 9V battery. These products has a zip for manufacturing purposes only.

snoezelen®

Snoezelen® SenStation™

An all-in-one sensory solution. A mobile unit featuring Snoezelen® favourites. On high quality castors with brakes so moveable - these popular multi-sensory resources can go to the users, rather than users having to move to the products. Perfect for those who don't have a dedicated sensory room. Stimulating, multi-functional, interactive and practical. With sensory elements on all sides to make maximum use of available space. Birch ply with a lacquered finish as standard to help protect the ply whilst it is wiped clean. Weight: approx. 130kg. Additional large item shipping surcharge. Non-returnable.

Includes:

- 2 Wall Panels of your choice (excluding Double Bubble Bonanza™ and Hip Hop Activity Box)
- Waterless Rainbow Tube 125cmH (22978)
- Fibre Optics (17905) 100 stands x 2mL and Light Source (19210)
- Milky Way Carpet Mat (14726-BLK) and Light Source
- Interactive Aroma Panel (20943)
- LED 100 Projector (22612) and accessories
- Deluxe 8 Colour Wirefree Controller
- Storage cupboard, trays and shelves

Please specify panel colour when ordering.

R522888

150L x 70W x 135cmH. approx.

Snoezelen® SenStation™

The all-in-one sensory solution.

The mobile unit that brings the key elements of a Snoezelen® Multi-Sensory Environment to you.

360° of Snoezelen® SenStation™ Activity

With products on each side, the Snoezelen® SenStation™ provides stimulation for individuals or groups.

Make it your own

Use the storage provided to personalise the experience by introducing smaller sensory products, favourite items or assessments.

Versatile

Easy to manoeuvre and can be set up in minutes and plugs into just one outlet.

Panel choices

- Multifinity Explorer
- Fireworks Extraganza
- Colour Catch Combo
- Colour Command Centre
- Sound to Sight Showtime.

Mobile Solutions

Snoezelen® Sensory Trolley

Multi-purpose and mobile. On high quality castors with brakes to allow the unit to be moved from room to room. With an integrated tactile panel on one large side and several colourful storage trays on the other. Trays have a built-in stop mechanism and so can't be accidentally removed.

The tactile panel houses speakers which are safe to touch and can be used to provide auditory input. One short side has a shelf for your music system (not included) whilst the other has cut-outs for fibre optics. The flat top could be used for further sensory resources such as a projector. With a 6-gang extension lead inside. Requires just one mains socket. Supplied without additional sensory products so that you can select the components most suitable for your clients' needs. Not compatible with our 21986 Hi-Fi Audio System.

Stimulating, multi-functional, interactive and practical. With sensory elements on all sides to make maximum use of available space. Birch ply with a lacquered finish as standard to help protect the ply whilst it is wiped clean. Weight: approx. 130kg Additional large item shipping surcharge.

116.5L x 58W x 103cmH

Speakers come included!

Rompa®

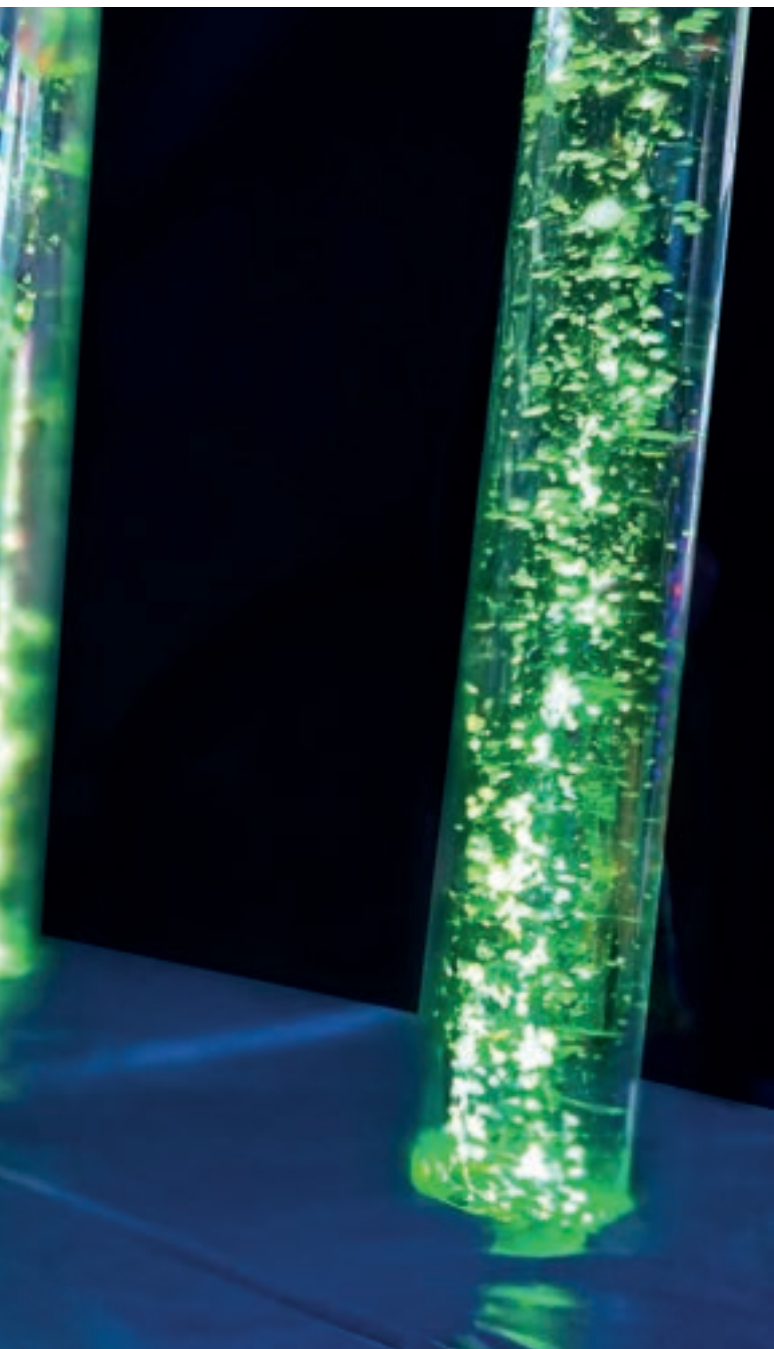

Bubble Tubes

Uses of Rompa® Bubble Tubes

- To draw attention, encourage focus or to distract - colour, lights and bubbles are visually engaging.
- To lift mood (provide enjoyment).
- To calm, encourage relaxation and reduce anxiety (which has physical and psychological well-being benefits).
- For visual tracking opportunities e.g. with fish, balls, cubes (which has implications for many activities of daily living such as reading and writing).
- To provide tactile input (hold/cuddle the cool bubble tube to feel the vibration through the whole body).
- To provide auditory input (soothing humming of the pump).
- For meaningful communication and learning (the right level of activity), with switches and controllers, such as colour recognition, social skills (turn-taking) and understanding cause and effect (and for supervisors to learn more about users' sensory preferences and needs).
- To allow choice and control and so empower users (fundamental aims of Snoezelen®) through a variety of controllers, including a microphone.
- To practice motor skills - pressing buttons on switches, throwing cubes, reaching up and around the tube.
- To maximise space - bubble tubes can be tall and have compact bases. Combined with slim acrylic mirrors, a bubble tube corner provide a striking and vibrant focal point in sensory rooms, bedrooms and more.

snoezelen®

Key Features

Bubble tubes are an essential component of a Snoezelen® Multi-Sensory Environment, these bubble tubes are a complimentary focal tool for sensory regulatory activities or used interactively.

- Multi-sensory - auditory, tactile, temperature and visual input.
- Suitable for individuals of all ages (use under close supervision).
- Attracts attention, concentration and engagement
- Encourages visual tracking, physical movement and hand-eye co-ordination.
- 8 colours provide a calming, relaxing ambience, also promoting colour recognition and visual perception.
- Smooth surface and cooler temperature of the tube provides tactile contract and feedback.

Reliable and Safe

Designed with reliability and safety as a priority, these bubble tubes give years of service, continuing to bring relaxation and stimulation to any multi-sensory environment.

Rompa® Bubble Tubes

Interactive and LED lights - they are easier to maintain than ever before with their fill and empty from the bottom feature! Beware of poor quality imitations!

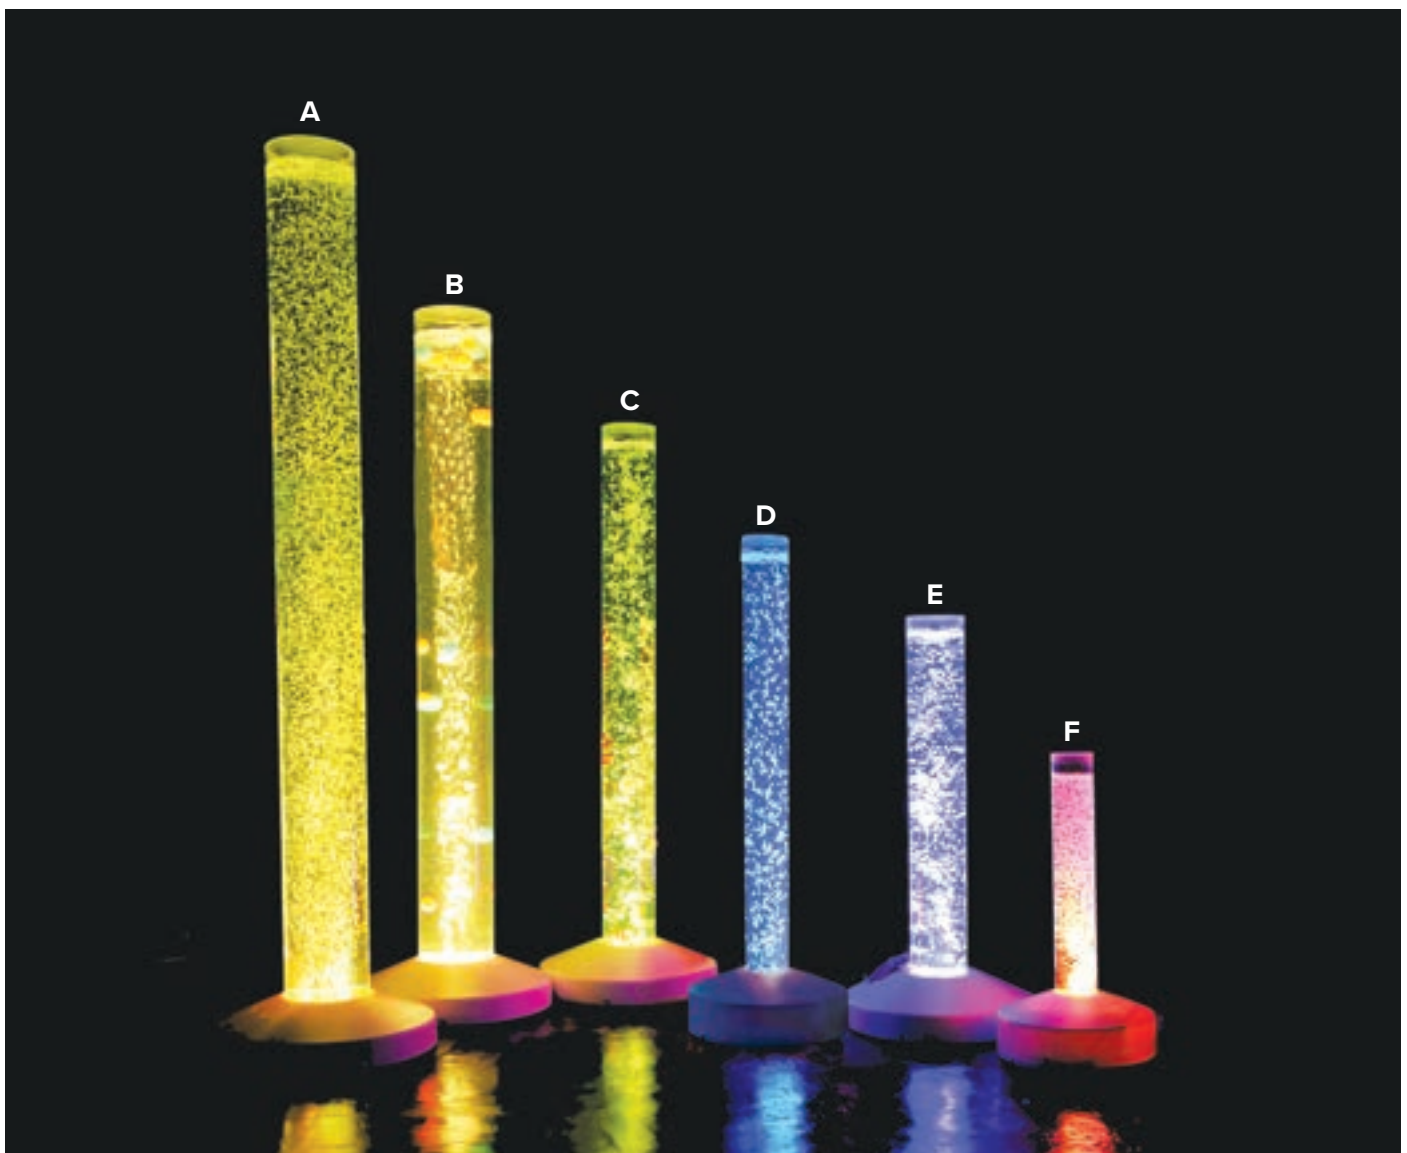

Designed with reliability and safety as a priority, these products will give years of service, bringing relaxation and stimulation to any sensory room or multi sensory environment.

Key Features

- Cycle through the full spectrum of colours, every colour in the rainbow and all the shades in between!
- Wireless compatibility.
- Facility to be easily programmed to the users requirements.

Compatible Products

- Mirror panels provide further sensory input, creating the illusion of more bubble tubes (product code 11160).
- Give your user choice and control of the sensory stimuli level. This could potentially aid assessment of preferences/likes/dislikes, assist with teaching and learning skills (using compatible switches such as the Deluxe 8 Colour Controller (product code 19847 + 21006).
- 8 Colour Wirefree Controller (product code 19847) or Talking Cube (product codes 18870 and 20402).
- A bubble tube collar is recommended to secure the bubble tube to a wall (15192 - 20cm) or (14694 - 15cm).

Contains LED lights for maintenance-free use. Charge lasts approximately 3-4 hours. Compatible with Super Interactive Switch Box 17274. Not compatible with Rompa®'s Wireless controllers. Low voltage. Includes battery charger. Latex-free. Size: 73cmH x 10cm diameter.

R523275

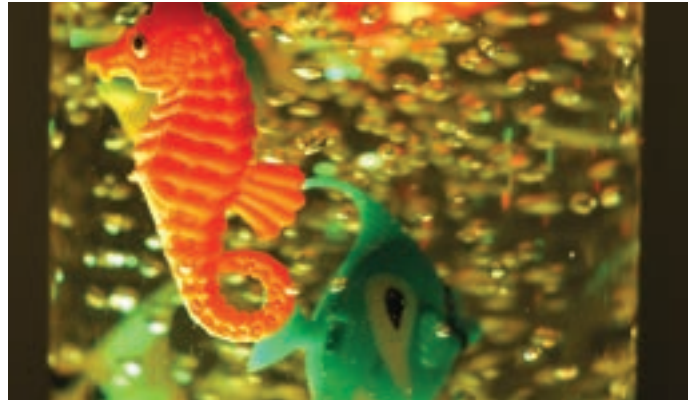

Bubble Tubes

Fish & Sea Creatures - Set of 8

Colourful and visually appealing. Fish and creatures may be found at different levels of the bubble tube. Typically includes 6 fish, a seahorse and a jellyfish but contents may vary according to availability. These are intended for use in bubble tubes. These are not intended to be handled and are not toys.

R521193

Bubble Tube Balls - Set of 15

Spare balls for your Ball-Bubble Tubes.

R515203

CUSTOMER REVIEW

A great addition to our bubble tube nice and bright. We're buying more!!!

Emma H., Verified Buyer,
Bewdley

Collar

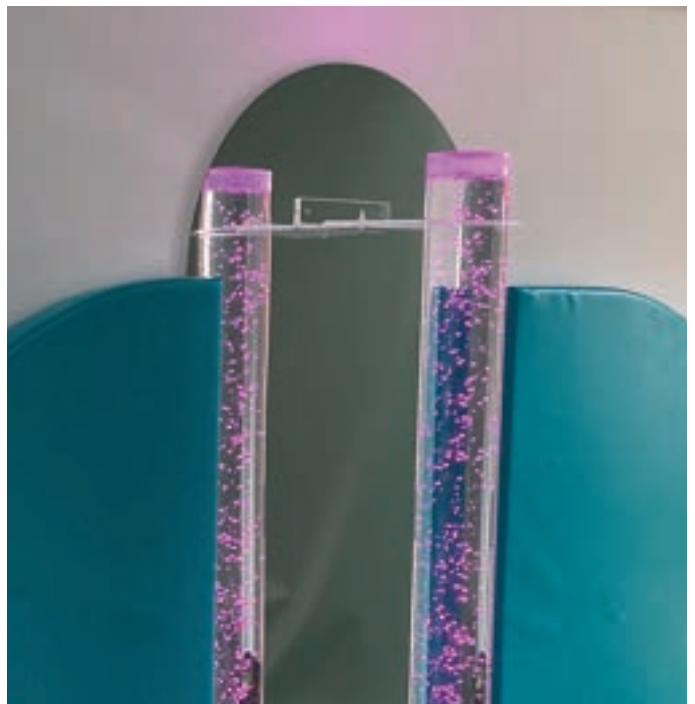

We recommend the use of a collar for further stability. The transparent collar fits over the top of the Bubble Tube and is secured to the wall. The length of the collar can be adjusted to accommodate different sized cushioned platforms. Choose the appropriate collar according to the diameter of your Bubble Tube. To be purchased separately from the bubble tube. Latex-free.

Bubble Tubes Accessories

Acrylic Mirror Panels

Reflections add another dimension to the Snoezelen® environment. Enhance the visual effect of your Bubble Tube with mirror panels, creating the illusion of more Bubble Tubes! Much safer than glass, these acrylic mirror panels fix to the wall from the level of the top of the padded base. Each panel has a similar sized wooden board which is fixed to the wall first to ensure the mirror does not crack. The acrylic mirror is to be glued to the board. Fittings not supplied.

R511160 Size: Non standard cost per square metre

Cleansing water in Rompa® Bubble Tubes

To counteract the risk of bacterial growth in the bubble tube water the following procedures are suggested:

- Monthly changing of the water using an appropriate pump
- Monthly addition of BCB Fluid

This information is given without prejudice and in good faith and infers no liability on Rompa's® part.

BCB Water Treatment Fluid

R520698

Rapid Water Change Pump

Offers quick, safe and easy means of emptying and filling your bubble tube. Includes 4m of tubing and power supply.

R520601-SPECIAL Pump for Snoezelen® Double Bubble Bonanza™

R520601

Bubble Tube Filling Pump

Enables your Rompa® Maxi Bubble Tubes to be filled from the base, rather than via the top of the tube. Includes pump, tubing and power cable to connect to the Maxi Bubble Tube's power supply.

R520908

Replacement Integral Pump

- White Curved Cushioned Platform 80 x 80x 30cm
- 8 Colour Wirefree Controller
- Bubble Tube Collar (15cm)
- Rapid Water Change Pump

We recommend that BCB Fluid (20698) is purchased separately.

R522517

Uses of Rompa® Fibre Optics

1. To provide visual stimulation and facilitate safe access to light, including amongst visually-impaired users and those with PMLD the fibres can be safely held.
2. To provide tactile stimulation - the soothing weight of a harness across the lap or stroking the tips across the hands, arms like a brush. Some fibres are textured, such as our Bamboo Fibre Optics.
3. To separate off areas and visibly create zones within a space using Combs and Curtains. Users can feel immersed and safely enclosed in these areas.
4. To calm, soothe and encourage relaxation - through softly changing colours and by providing a distraction from anxieties and discomfort.
5. To allow choice and control and so empower users (fundamental aims of Snoezelen®) through use with a variety of controllers, including the microphone. Individual strands can be used or whole harnesses, again facilitating choice and a person-centred approach.
6. For learning opportunities e.g. colour recognition (the colour changes dynamically) as well as colour matching and understanding cause/effect when used with controllers.
7. To provide Sensory input to immobile and bed-bound users through ceiling-mounted Clouds, Panels, Circles and Chandeliers. Using a fan near suspended strands, moving these gently can increase visual effect.
8. To maximize space - fibre optics can be threaded into carpets - we have options for floors, walls and ceilings.
9. To help individuals on the Autism spectrum to concentrate and improve attention.
10. To encourage motor skills and exploration - strands can be fanned out, threaded through loosely-knitted items, draped over the body, wrapped around the body and fingers can be passed through the tails.

Fibre Optics

Super Safe Plastic Fibre Optics

These plastic tails are the safest fibre optic option available. Use of all fibre optic products should be supervised. Requires a light source (19210).

Fibre optics should never be mouthed.

- Robust, strands are ultra-resistant to accidental damage
- Equally bright as standard fibre optics
- Durable and long-lasting

CUSTOMER REVIEW

Fab lights. My girl loves them in her sensory corner. I've tried other like this from elsewhere and these are the best ones we have had.

Sarah H., Verified Buyer

CUSTOMER REVIEW

These are fantastic. Very long and loads of strands to them. Just brilliant and worth every penny!

Amanda S., Verified Buyer

Compatible with our wireless controllers which can be found on page 20 to 22.

Shimmering Island

Our new “Shimmering Island”! It’s like a big, comfy hug covered in super-strong PVC and filled with special granules that mould to your body for maximum cosiness. In the centre, there are fibre optic stands that light up and make the whole island come alive! Additional large item shipping surcharge. Non-returnable.

R523642

Light Source by Rompa®

With LED technology, this Wireless light source is cool-running and maintenance-free. Compatible with Sensory Magic® and an interactive device such as Snoezelen® Colour Command Centre™ wall panel, Talking Cubes or 8 Colour Wirefree Controller. Ideal for sensory stimulation, colour recognition, and developing the understanding of cause and effect. Compact and can be wall-mounted. Secures fibre optics into the unit via a top screw for safety and security.

R519210 18L x 8W x 5cmH

2-Port Light Source by Rompa®

With all the key features of our standard light source, but with 2 ports so 2 fibre optic products (e.g. Fibre Optic Harnesses, Milky Way Mats) can be operated from one light source and one electrical point. Especially useful in cushioned platforms where space is tight. Allows colour sequences of both products to run in tandem.

R521452 18L x 8W x 5cmH

Fibre Optics

Jumbo 'Bamboo' Fibre Optics

Visually appealing as you would expect of fibre optics – and highly tactile too! Chunky strands encase the polymer fibre optics for further safety. Requires light source 19210 or 21452 for 2 harnesses. Easy to grip. With crimped ends. Phthalate-free. Translucent.

R520473 1m x 20 strands without light source

R520475 2m x 20 strands without light source

CUSTOMER REVIEW

I can't believe how bright these bamboo fibre optics are, my daughter is transfixed, the Chunky strands are easy to pick up and ply with, perfect for those who struggle with fine motor skills. I could not recommend these enough, they look very strong and sturdy, I am sure they will be loved by my daughter for years to come, a must buy for any sensory room.

Jason H., Verified Buyer

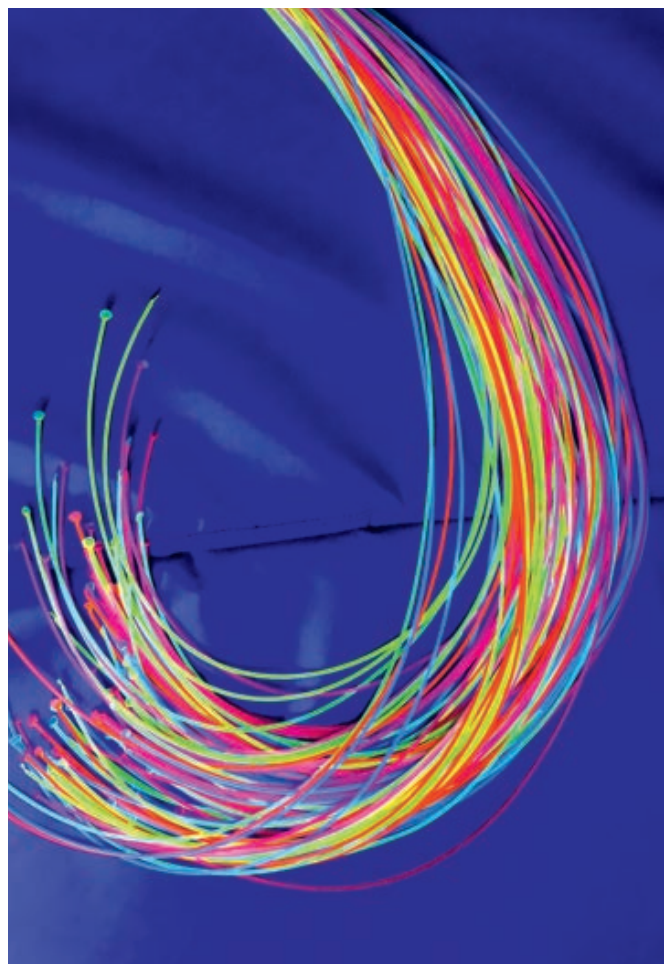

Ultra Violet Fibre Optics

Sparkling, captivating, stunning and now glowing too! Fibres twinkle like your usual fibre optics, but there's more! Double their effectiveness and use them under UV light for glow-in-the-dark strands and extra visual appeal. Plastic, with crimped ends for safety. Requires light source 19210 or 21452 for 2 harnesses.

R517557 1m x 100 strands without light source

R517558 2m x 100 strands without light source

CUSTOMER REVIEW

These are fantastic. Easy to use and vibrant when used with a black out lamp. Lovely item would recommend.

- Control box
- Software
- Reflective bats
- Reflective floor mats
- Manuals

Interactive Light System

“

CUSTOMER REVIEW

The system has been a very accessible and exciting for our pupils. It is very responsible to the smallest movement so even our more physical disabled pupils have been able to produce sound and contribute to a greater sound installation, for example, our iPad Orchestra. Pupils were very keen to give it a go and experiment with sound effects.

**Ellen Croft., PMLD Curriculum Leader,
Leicester**

”

“

CUSTOMER REVIEW

Excellent for immediate engagement in a huge range of activities that can cover pretty much any area of the curriculum. For first-time musicians it can be used as an error-less method to explore an instrument or for those struggling to engage in maths, it can be subtly woven into numeracy-based activities... Easy to use which enables all the staff, regardless of their IT capabilities... One of the greatest features is that it can be completely customised to suit the needs of a wide variety of learner profiles... Our learners have loved using the Optimusic System and are also realising the health benefits as 'Chase the Beam' has become enormously popular.

**Chris Buckley, Head of Education,
Seaford**

Inset mode is the same concept as green screen, only here there is no need for a green screen. It removes the background and places users into virtual place.

3. Shadow

For those that do not like to see themselves in the video images, rendering the user image into the scene as a dark filled shadow.

4. Avatar

Take control of on-screen avatars and watch the characters come to life with the movements you make.

5. Facilitator Mode

When working with a single user it is possible to set it to only track one user.

Immersion

1. Responsive

The slightest movement over the projected image will cause an audiovisual effect response.

2. Interaction

Allows multiple users to interact at the same time using a variety of inputs and output the image to a second screen.

3. Dynamics

Offers dynamic physics capabilities allowing movements to interact with objects in a realistic way.

4. Stimulation

Caters for a wide range of needs with applications designed for early stimulation, exploration and engagement.

5. Kinaesthetics

Participants use their body to interact with the content, while shifting position, orientation and reaching out to interact with game objects.

Compact Mobile Interactive Floor Projection

Our smallest system designed to make interactive projection accessible, so families can replicate the benefits of the larger systems within the comfort of the home. No set up required. Includes themes, imagery, videos and sound effects for plug and play, as well as click-together foam flooring and a full training manual.

Roughly the size of a shoe box and weighing just 1.7kg. LED-based and low-voltage (one plug). Wall-mountable. Optional trolley available for projecting onto a table top or wheelchair tray. Image size: 1.2mW x 0.9mH.

R523386 12W x 15D x 19cmH

R523417 Wheeled Frame

Immersive Rooms

Access multi-sensory communication environments for learning, therapy and play!

Combine an interactive floor and wall projector creates a 360° interaction for a truly immersive environment, which allows users to explore communication, amplify capabilities and make environments more responsive.

Using highly responsive hardware, the latest motion-tracking technology and easy-to-use software with pre-loaded and editable themes, these systems offer endless opportunities for education, leisure and therapy.

With edge blend technology your immersive room can featured content that can seamlessly wrap around corners, use curved projection or produce large panoramic landscapes. Projectors can also operate individually for multiple and independent activities in one area.

Supporting individuals with complex needs

1. Everyone plays

Provides an inclusive play experience for all ages, abilities and supports a wide range of inputs and controls.

2. Versatile

The breadth of content makes suitable for education, therapy and play. Great for schools, hospitals, care settings, play centres and more

3. Multi-sensory

Interact with variable stimuli, visuals and sounds that respond when you move. The system also reacts to objects.

4. Accessible format

Turns any surface into an engaging interactive experience. Project onto floors, tables, trays and more.

5. Creativity

Unleash your creativity. Input your own images, artwork, music and photos to create highly personalised activities.

6. Hygienic and safe

In environments where minimising infection risks is essential, is the perfect inclusive play solution that helps to keep communal play spaces safe.

Why get an immersive room?

1. Create accessible lessons

With immersive rooms you can design how your lessons is delivered. An immersive room frees you from the PC and allows you to control the lesson from anywhere.

2. Explore communication scenarios

Design accessible communication scenarios and allow people to develop their skills using AAC devices and a wide variety of access tools.

3. Support therapy goals

Develop speech and vocalisation skills, promote AAC usage with enjoyable and collaborative communication scenarios allowing users to communicate with their peers.

4. Interactive sensory stories

A sensory story is a highly engaging way to deliver accessible experiences. These are even more engaging when there is a dimension of feedback and interaction.

5. Engaging multi-sensory themes

Immersive rooms has the potential to support a wide variety of sensory and learning needs and is designed to offer variable levels of output intensity so that stimuli can e increased or decreased to meet needs.

6. Make accessible, inclusive music

Turn your environment into an inclusive musical instrument and performance space and use any input device to play accessible music. Add your own sounds and make your own instruments.

Home Projector Set

Projects a sharp image in a darkened environment. With a light output of over 500 lumens. Includes 16GB micro SD card with both still and moving images such as soothing flower fields or under water scenes Includes compact speakers and a table stand.

R522944 10.5W x 10.5D x 3.7H cm

Space Projector

A slim-line projector to suit smaller sensory areas. With an LED and so does not emit heat. Includes one easy-to-change Space Liquid Wheel.

R523209 25cm L x 24cm H

Water Effects Projector

Projects a circle of colour with a rippling water effect. Various colours and can be stopped on one colour. Contains LEDs for minimal heat and maintenance. For use indoors, in dry environments. 240V. Weight: 4kg

R520777 31 x 26.5 x 20 cm

Projection

Aura Projector

The perfect projector for the home, with a Liquid Effect Wheel as standard and built in Wheel Rotator so all necessary parts are included. High quality, and an appropriate brightness for bedrooms (our other LED Projectors are brighter for larger multi-sensory Snoezelen® environments). Features include: Timer, Dimming control, LED so no bulb changes and no heat. Compatible with our extensive range of effect wheels. Not compatible with the Panoramic Rotator, Distortion Wheel, Clip-on Prism, Multi-Facet Mirror or the Rompa® Wireless range. Contents may vary.

R522662 20 x 20 x 20 cm

R521508 Includes Aura Projector with built in Wheel Rotator and set of 3 effect wheels (Liquid, Sun and Starry Sky).

CUSTOMER REVIEW

An incredible visual experience. Our son has learning difficulties, his main problem is caused by Angelman Syndrome and has trouble sleeping. This projector has helped him relax which is excellent for his whole well-being. Suffice to say we are very happy with the purchase.

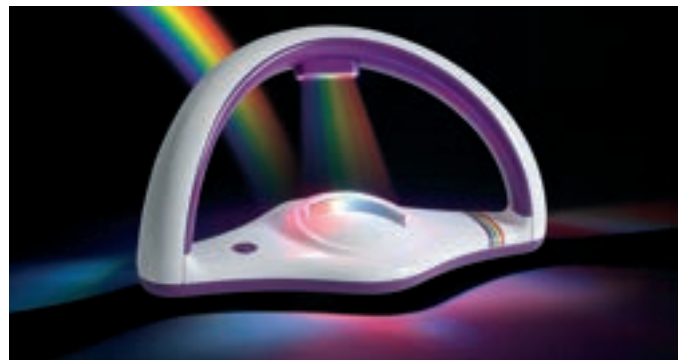

Joe B., Verified Buyer

Rainbow In My Room

Includes a sunlight rainbow crystal – position in a sunny window and watch the rainbows dance around your room! Projects a realistic-looking rainbow onto your wall or ceiling. Mirror Balls and Spotlights

Mirror Ball

When a spotlight is shone onto the Mirror Ball, multiple reflections of moving lights cascade around the room creating a truly mesmerising experience. The mirror ball works at its best attached to a motor which rotates the ball. This is not included but can be purchased separately (product code 18524 or 18525). The drive unit needs to be fixed to the ceiling or overhead support and connected to a 240v mains supply. Ideally used with an LED Spotlight e.g. Wireless LED Spotlight (product code 20878). Typically with glass facets. Locate out of reach (not intended to be handled).

R524282 Mirror Ball - 30cm diameter

R520547 Mirror Ball - 20cm diameter

R518524 Motor 1 - 11/2 RPM. Our recommended means of revolving a mirror ball. Requires ceiling-mounting.

R518525 Motor 1/2 RPM. Our recommended means of revolving a mirror ball. Requires ceiling-mounting.

Wireless LED Spotlight

Compact, cool-running and maintenance-free spotlight. Choose one colour light all the time (6 options and white), from several colour changing programs or use interactively with a Rompa® Wireless controller and Sensory Magic®. Visual effect is easily adjusted using DIP switches underneath, as is speed of colour change. No need for a colour wheel or lamp changes. With integral, angle-adjustable bracket. For indoor use only. Weight: 0.8kg.

R520878 18 x 12 x 10.5cm

Portable Mini Spotlight

Perfect for highlighting smaller areas with colour. With a removable bracket for suspension from a ceiling. Considerably cooler-running than traditional spotlights. Compact and safe. Pre-programmed, including sound-responsive effect. Not especially suited to use with mirror balls. Rechargeable, or use the included 12V adapter as a power supply. With a remote control.

R522969 12cm diameter x 9cmH

Light Strips

Wireless LED Strip Light System

Lighting that's as flexible as it is interactive. Perfect for edging, highlighting and bordering walls, stairs, ceilings, doorways or virtually wherever you want in your indoor area. Includes self-adhesive Wireless LED Light Strip and power supply. Compatible with our Wireless controllers and Sensory Magic® for remote control of colours. Not intended to be handled - install out of reach such as behind a short pelmet at ceiling height.

Stix Mindfulness

What is Stix Mindfulness?

Stix Mindfulness Remotes & Case

The Stix Remotes are like a well-being instructor in the palm of your hands. Choose an activity and listen to the instructions guide you through calming activities.

Benefits:

- Manage your screen time with ease: Stix activities can be enjoyed with or without a phone, allowing children to maintain control over their screen usage. Whether using the app or not, you have full flexibility to access activities at your own pace.
- Choose your preferred activities: You can select your favourite activities through the app (optional) or simply hold the buttons down to play a random one! This makes it easy to engage in mindfulness and relaxation practices at any time.
- Activities that are backed by science: The activities are not just random games, they are carefully crafted by leading psychologists, designers and mindfulness experts. Using evidence-based approaches to support mental health, with activities tailored for every situation, helping with anxiety, improved sleep, fostering relaxation and supporting emotional balance in seniors.

R523621

Stix Mindfulness Remotes Premium & Case

Stix Mindfulness Premium Remotes provides interactive activities guided by audio and has 30 preinstalled activities, compared to 12 on the base model.

The Stix Remotes are like a well-being instructor in the palm of your hands. Choose an activity and listen to the instructions guide you through calming activities

R523622

Importance of Seating, Positioning & Furniture

Posture is an important aspect of daily life for able-bodied and disabled people alike. Posture habits formed during the years of growth and development.

Our posture has an impact on, and is impacted by, the way we walk, sit and perform physical movements.

Our range of equipment and furniture will allow good postural positions to be adopted whilst providing a comfortable, safe and dignified seating or positioning option.

Chatsworth

The Chatsworth range includes individual pieces of furniture as well as settees and corner units that can be placed together to maximise the space available. These modular pieces can be used in a variety of combinations and are perfect for waiting areas.

For example, team a 3 seat settee that has a single arm with a corner unit to fill a whole wall. A second settee with the opposite single arm could be added to the other side of the corner unit to fill 2 adjacent right-angled walls.

With so many colours, sizes and sensory options to choose from, it's up to you.

To make the furniture even more comfortable and inviting-looking, why not add some scatter cushions? Choose matching colours or contrasting shades for visual stimulation. All Chatsworth furniture is non-returnable.

Musical Chatsworth Highback

A redesign of the classic Rompa® high back. This new variation features speakers to give the user a vibroacoustic therapy experience. Designed to be super comfortable and made using high-density foam and PVC which makes it easily wipeable.

R523718

What are De-escalation rooms?

Rompa® can design and install calming spaces for demanding environments such as schools with students with behavioural, emotional and social difficulties (EBD), offenders' institute and prisons.

These installed facilities provide a robust and safe environment where individuals with challenging behaviours and aggressive tendencies have an opportunity to calm down and be encouraged to manage their own behaviours.

Intended to reduce risk and potential injury, these low stimulation rooms are designed to foster the safety of the individual, peers and supervisors alike. These spaces should only be used as part of a wider structured plan following good practice guidelines and appropriate legislation. Use of these environments should always be for a carefully monitored and minimal time, with the best interest of the individual at its heart.

Seclusion Furniture by Rompa®

Specifically designed for use by clients with severe behavioural problems and unpredictable tendencies.

Additional large item shipping surcharge. Non-returnable.

Features:

- No inner wood or metal frame, therefore no hard surfaces
- No zips, cords nor sharp edges
- Client cannot hide objects in the chair
- Client's hands are visible
- Low position and sloping armrests mean client cannot get up hurriedly

Cushions & Wedges

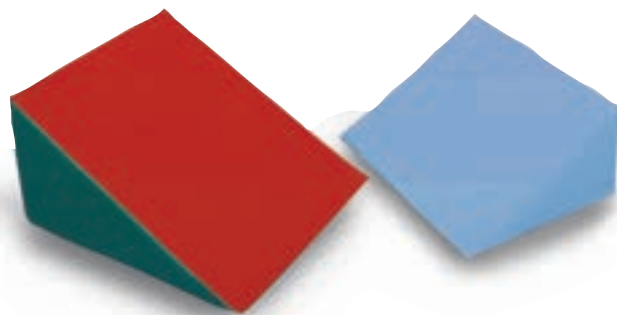

Foam Wedges by Rompa®

A firm foam filled wedge covered in easy to clean heavyweight durable PVC. These are ideal for use on chairs with the pointed edge to the back. For someone with increased tone and Spasticity, the wedge puts someone in a more flexed position at the hips. Special sizes can be made to order. Non-returnable

R514037 Small Size: 38W x 46D x 18cmH

R514038 Large Size: 50W x 50D x 23cmH

Chunkies by Rompa®

Chunkies are versatile wedge cushions filled with polystyrene beans which mould to the body, creating a firm yet movable support. The Large Chunky could be used for lying on the floor with the user's back on the slope; a taller person could lean on it with their tummy on it; for providing relief from being in a wheelchair; for prone extension (strengthens the back and neck muscles and encourages the head to be held up); neck extension; help with sitting balance as you are building trunk support and for behind the knees (for those who don't like lying flat). Non-returnable.

R514036 Large Size: 56W x 84D x 54cmH

Emotion Sequin Cushions - Set of 6

Made with "Flip Sequins", brush them one way with hands and fingers to reveal the image, brush the other way to hide it again. Glittering colours and soft textures to promote conversation about mood and emotion. Gross and Fine Movements: sequins can be flipped with either broad brushes by the back of a hand or by fine fingertip strokes. Zipped outer cover removes. Sealed inner cover filled with FR fibre fill.

R524318 40cm x 40cm

Emotion Floor Pads - Set of 8

Extra large size and bold graphics plus two pads with mirrors make these new "Emotions" pads an essential aid for conversations about mood and emotion in a class or clinic. Includes: 8 x 800 x 600 x 4mm thick carpet pads: 2 x Mirror, 1 each: Happy, Excited, Scared, Sad, Angry, Shy.

Floppy Island by Rompa®

A large round, comfortable island filled with special granules which form to the body shape to give gentle support. Ideal for use in a Snoezelen®, softplay room or relaxation area. Covered in durable PVC. Please specify colour choice when ordering. This product has a zip for manufacturing purposes only. Additional large item shipping surcharge. Non-returnable.

R512333 150cm diameter x 50cmH

Bean Bags & Large Cushions

Primary Chair

Comfortable seating for children in the Snoezelen® MSE, sensory corner of the classroom, library, reception or bedroom. Can be taken outside as made from shower-proof and UV-resistant fabric. To be stored indoors. Woven polyester.

R522237 70cm diameter

Primary Square

As the child is snug and therefore less likely to fidget, he/she can concentrate and participate fully on the activity in the Snoezelen® room, classroom or outside area. Soft, bright and inviting. Water-resistant. To be stored indoors.

R522238 70 x 70cm

Secondary Bean Bag

Comfortable and cool. Inviting, practical and easy to move into a quiet corner for study or into a group for conversation.

R522239 80cm diameter

Secondary Slab

Multi-function bean bag – flat as a large floor cushion; on its side as a hammock seat; or propped against the wall as a chair. Can help focus and encourage study as it allows the student to choose his/her most comfortable position – reclining, prone or seated.

R522240 125 x 120cm

Ergo

The revolutionary small Ergo is the safe and healthy way to sit. Children are happier and learn better when they can sit actively.

Teachers report that students sitting on the small Ergo often improve significantly in posture, concentration, participation, and behavior.

Moving and stretching addresses key aspects including enhancing self-regulation through stress reduction, decreasing hyperactivity, and increasing focus. The small Ergo is perfect for children ages 4 – 9 years old.

Beds & Mattresses

Musical Water Bed by Rompa®

Fine vibrations of rhythm, tone and beat can be produced through your music system, which connects to the bed. The bed adapts to the body shape giving warmth, comfort and muffled noise, similar to foetal experiences in the womb. The bed has a wooden base and is mounted on a giant loud speaker cabinet. Not intended for long-term sleep nor to be used as a permanent alternative to a bed. PVC - please specify colour choice when ordering. Additional large item shipping surcharge. Non-returnable.

R520191 Single 100 x 200 x 45cm

R520192 Double 140 x 200 x 45cm

R520193 Queen 160 x 200 x 45cm

CUSTOMER REVIEW

The bed was easy to set up with good instructions. It is a valuable asset in our sensory room serving to support, relax and stimulate children. The musical aspect is especially useful. The bed and mattress are very well made.

**Caroline Jones, Grant co-ordinator,
Gloucestershire**

Water Mattress by Rompa®

A heated water mattress which moulds itself to the shape of the body giving total unrestricted support without any pressure points. The special double isolated heater pad with variable heat control maintains the mattress at a comfortable temperature. The water mattress is designed to be used on the floor or a suitable strong support capable of taking the total weight when filled. Not intended for long-term sleep nor to be used as a permanent alternative to a bed. The cover is made from strong, reinforced durable PVC which can be wiped clean. Includes heater pad, fill kit, 17m (50ft) hose pipe, water conditioner and instructions. Platforms for the Water Mattress can be made to your specifications by special order. Additional large item shipping surcharge. Non-returnable.

R520188 Single 100 x 200 x 20cm

R520189 Double 140 x 200 x 20cm

R520194 Queen 160 x 200 x 20cm

We can manufacture wooden platforms (with hoist access as required) to meet your requirement. We manufacture mattresses, headboards and wall cushioning to your specification.

Contact us to discuss your requirements.

Vibrating & Massage

Musical Positioning Cushion by Rompa®

Gives tactile and aural stimulation whilst providing comfortable support. The bean bag envelopes the user so the vibrations and the music from the special integral speakers can be felt in the body. Requires music system. This product has a zip for manufacturing purposes only. 1350mmW x 950mmD x 600mmH. Additional large item shipping surcharge. Non-returnable.

R515781 145W x 100D x 60cmH PVC

R517781 145W x 100D x 60cmH Faux Suede

Positioner by Rompa®

Same size and fabric/colour options as the Musical Positioning Cushion but without the vibration and music (entirely bead-filled).

R518286 PVC

R518483 Faux Suede

Vibrating Floor by Rompa®

This cushioned wooden floor vibrates automatically or in response to music or vocal stimuli. Additional large item shipping surcharge. Non-returnable.

- Provides three methods of vibratory stimulation:
- Built in oscillator to vary frequency and extent of vibrations.
- Musical stimulation.
- Amplifier and leads supplied for ease of connection to any music centre or radio.

R514925 2m x 1m x 35cmH

Fold Up Massage Mattress

Compact and comfortable. This Massage Mattress folds up for ease of transportation and storage. It is extremely versatile and can be used on the floor, on top of a bed or on a chair. The handset gives easy control of the mattress, including massage motors and heat. Not suitable for those with thrombosis, epilepsy, blood pressure problems, acute illness, varicose/inflamed veins or during pregnancy.

R520666 170 x 60 x 8cm

Furniture

Large Double Rocker

Made for sharing! With room enough for two. PVC – please specify colour choice when ordering. This product has a zip for manufacturing purposes only. Additional large item shipping surcharge. Non-returnable.

NEW

Benefits of Soft Play Rooms

With a commitment to quality and safety, our products are thoughtfully designed to meet the needs of diverse users across a range of ages and abilities. Built for longevity and tailored to person centered care, each item is crafted to enhance sensory engagement and create meaningful multi-purpose spaces.

Our extensive selection includes British-made products in a generous array of colours and fabrics. Free room design services, including 3D plans for larger projects, ensure each space is customized to fit specific needs and maximize usability. Fire-retardant, phthalate-free, and latex-free PVC materials provide an added layer of safety, while many items feature sensory elements like lights, mirrors, textures, and sounds to create immersive environments.

Durable and adaptable, these products are built to endure years of use. Options such as cabins, steps, and wedges are designed with sturdy wooden frames for added stability, while foam densities can be customized to suit individual needs. Multi-level options encourage varied movements, and our products integrate seamlessly with Sensory Integration and Snoezelen® MSE resources, making them suitable for multi-functional spaces. With over 35 years of experience in design, manufacturing, and installation, we offer easy maintenance options and service contracts, providing continued support and ensuring your space remains engaging and well-maintained.

Hip Hop Activity Box™ by Rompa®

Rewarding, responsive and remarkably versatile! The vibrant illuminated screen and matching interactive floor pad allows you to play games, create music and trigger shows of light and colour. The panel has 6 unique modes and is packed with games, sound effects and music for endless hours of fun and learning. Encourage movement, creativity and composition, listening skills, meaningful activity and an understanding of cause and effect. Enjoy passively or interactively in a targeted way, or simply to allow exploration and choice at the user's own pace. Additional large item shipping surcharge.

Features include:

- 6 modes of operation, including Simon Says and Create a Song
- Different levels of complexity – some modes are simple and others are more challenging
- 10 different sound effects including musical instruments, animal and space sounds
- Accessible and illuminated push button
- Great for colour recognition and matching
- Can be use with a microphone for a sound to light effect to encourage vocalisation

A pattern is supplied with the bag - just in case you can't fit your puzzle together again! This product has a zip for manufacturing purposes only. Additional large item shipping surcharge.

R516018 50H x 150L x 75cmW

What is Sensory Integration

Vestibular and proprioceptive senses are often overlooked beyond the “traditional 5 senses”, although they form an essential part of our day to day lives.

Proprioceptive senses process information from our muscles, joints and other body parts to provide us with an unconscious awareness of the position of our body parts in relation to each other, other people and objects.

The vestibular sense puts balance into our lives. it provides information about movement, gravity and changing head positions. It tell us whether we're moving

or we're still, as well as the direction and speed of our movement. We can even tell if we are vertical or horizontal - even with our eyes closed.

Combining the development of both proprioceptive and vestibular senses, the practice of sensory integration can assist in developing the ability to process this information.

Weighted Blankets

Sleep Tight™ Weighted Blanket

Helps clients to become calm and comfortable to encourage restful sleep. Suitable for clients weighing over 9kg (20 lbs) who have difficulty calming down to get to sleep. With a curved neck cut-out to help prevent the blanket from bunching around the face. Designed by an Occupational Therapist with over 25 years of experience. What is Haley's Joy

Haley's Joy®
Accessories

A clever system originally just for Haley and now available just from Rompa®

Haley was a little girl who experience challenges centring herself and focusing. Her family searched for ways to help her development and found floortime therapy. The first challenge her parents encountered was gaining swing proved to be exactly what she needed, and it became her most beneficial tool.

Haley's grandfather, an engineer by trade, designed and built her a portable vestibular swing, one which could be moved to any room, and used to engage Haley in therapy and developmental activities. For her family, the swing provided a practical solution. For Haley, the swing provided pure joy.

Ceiling support Loading

Note: Please ensure ascertain from the appropriate authorities that the fixing point is suitable and will hold up to 450kg load at up to 45° angle in any direction.

All hanging equipment requires a minimum ceiling height of 2.5m (8ft) and should be positioned a clear distance of 1.8m (6ft) from any adjacent walls and other obstacles. All swings suspended from a single point required a Safety Rotational Device.

Size 1 Frame

Weight capacity: 68kg Packs down into one bag.

R522666 Frame and Protector | Footprint 157 x 130cm

R522669 Platform Swing | 81 x 61cm

Easily carry or conveniently store the Haley's Joy® Balance Buddy Bolster Swing with this durable nylon bag. For use with Balance Buddy Bolster 22997 Size 2 or 23004 Size 3.

R523001 91 x 51 x 33cm

Haley's Joy® Sensory Wrap

Provides deep sensory pressure. The interior is made of a comfortable microfibre fabric. The exterior is durable woven nylon, can be easily cleaned. Suspended with easy to clean PVC covered chains.

Haley's Joy® Carrying Bag for Reagan's Ride

Easily carry or conveniently store the Reagan's Ride with this durable nylon bag. For use with Reagan's Ride - to be purchased separately. Size: 41 x 41 x 25cm.

R522994 Carrying Bag for Reagan's Ride Frame Size 1

R523000 Carrying Bag for Reagan's Ride Frame Size 2 or 3

Haley's Joy® Balance Buddy Bolster Swing

Designed to help improve balance, core strength and reactions to maintain body alignment. The foam padded base is covered with an easily cleaned moisture/wear-resistant PVC. Suspended by 127cm PVC covered height adjustable chains.

Haley's Joy® Reagan's Ride

A soft seat swing that provides surrounding pressure for enhanced stimulation. The interior is made of a comfortable microfibre fabric that can be easily spot cleaned. The exterior is made from high strength fabric. The removable pillow (included) is covered in a zippered microfibre fabric case. The swing has 20cm total range of adjustment up and down, which is independent front to back, allowing for a backwards tilt, if required.

Leaf Chair

The elegant leaf chair cradles the body and provides a gentle swinging motion to help relaxation. Chair will support up to 100kg. Competent building advice to be taken regarding fixture of the Ceiling Mounted Bracket. For ceiling suspension a Rotational Safety device must be used. Chain included with chair. Size: 165cmL. Additional large item shipping surcharge.

The Leaf Chair is now available in a variety of different colours by special order! Contact us for more information. Leaf Chair available colours; Blue, Green, White, Red, Black.

R514670 Chair & Stand (14669) Saver Pack

R514668 Leaf Chair - chain included. 165cmL

Suspension System

The answer for therapists who need a less permanent option. Additional large item shipping surcharge.

- Made from thick structural steel tubing 12.7cm x 7.6cm
- Will support almost any piece of suspended equipment
- Stays in place even with rigorous activity
- Spacious standard system includes 3 forged eye bolts spaced 90cm apart on the top beam
- Uprights and bases are heavily padded for added protection
- Easy to assemble and take apart for transportation
- Working load approximately 600kg (1,340lbs)
- Weighs approximately 317.5kg (700lbs)

Size: 3 metres (10ft) high, 3.6 metres (12ft) long and 2.4 metres (8ft) deep at the base. Please note: this product requires assembly by at least two people and appropriate lifting equipment.

R517687

Vestibular

Hanging Bracket

Purpose made bracket designed for fixing to timber or metal. Fixings not included.

Note: Please ensure you ascertain from the appropriate authorities that the fixing point is suitable and will hold up to 450kg.

Size: 13 x 30.5 x 10cmH

R521928 13 x 30.5 x 10cmH

Safety Rotational Device

Provides a connection to a single suspension point using the included Safety Snap, allowing for smooth and safe rotation of equipment in a clockwise or anticlockwise direction. Strong aluminium body with steel roller bearing and forged eye ring. Weight capacity: 725kg (1600 lbs)

All single point suspended swings should always be used with a Safety Rotational Device.

R521559

Vertical Bouncer Kit

Use with any swing for added bounce! Specifically designed to enable controlled bouncing and vestibular stimulation with any therapy equipment you attach to it. Includes 2 Single Vertical Bouncers, two 2 Double Vertical Bouncers, and 2 Safety Snaps. Reinforced elastic loops are sewn onto the ends of the Single and Double Vertical Bouncers. Weight capacity: 129kg (285 lbs)

R521567

Locking Safety Snap

Provides a connection between equipment and either an accessory and/or the final point of suspension. With an integral locking mechanism that screws closed over the opening to prevent the snap from opening inadvertently. Zinc-plated steel. Supports 25 Kilonewtons (255Kgf) and meets requirements of EN362:2004. Weight: 180g

R523011

Height Adjustment System

Provides you with the best way to vertically adjust your equipment for every client's individual needs. One of the most critical pieces of equipment to provide flexibility and versatility for any therapy program. Includes a Safety Rotational Device (21559), 3m Therapy Rope (21607), Safety Snap (23011), Vertical ascension device and a locking carabiner (more than simply 21607 and 21546). An additional Safety Snap (23011) is needed to secure the system to the end point of suspension and should be purchased separately. Working load: 225kg (500 lbs)

R521548

C Frame

Free standing suspension system. Easy to transport and assemble. Made from tubular steel with foam padding. Could be fixed to the floor if necessary. Maximum weight supported: 150kg. Latex- and phthalate-free. Size: 223.2cmH; Base diameter 191cm. Additional large item shipping surcharge.

Floating Cloth

Can be used outdoors (and then stored indoors). With four covered mounting springs for dynamic movement. For suspension from four points or two. Includes cloth, springs with mounts and 8 safety snaps. Washable polyamide with acrylic straps. Maximum load: 200kg.

R522480 250 x 250cm

O Frame

Free standing suspension system that eliminates the need for structural fixings. Made from tubular steel with foam padding and 3 suspension points. Could be fixed to the floor if necessary. Maximum weight supported: 300kg. Latex- and phthalate-free. Colour as available. Size: 220cmH, 235cm diameter at the floor. Additional large item shipping surcharge.

R520782 Without mats 220cmH, 235cm
diameter at the floor

R522620 With mats 220cmH, 235cm
diameter at the floor

Vestibular

Activity Bolster

Designed to provide vestibular input, encourage good balance and improve weight-shifting and co-ordination. With a flat surface unlike most Bolsters. Requires two suspension points at a minimum height of 2.4m. Maximum working load: 136kg (300 lb). Includes safety snaps. Size: 31.5W x 17cmH.

R522951 93cmL

R522952 126.5cmL

R522953 157cmL

Beano Swing

A robust, waterproof polyester bag filled with polystyrene beans. Swing on the Beano, resting on the bean bag seat. Working load 90kg (200 lbs). Includes a built-in plastic reinforced tear-shaped loop at the top of the rope to be hung from your suspension system. The length of this rope makes this swing unsuitable for use with the Suspension System 17687. This product has a zip for manufacturing purposes only. Size: seat 90cm circumference, 50cmL; rope approximately 140cmL.

R514113

Tube Swing

Multi-directional swing that is colourful and appealing. The heavy-duty and zipped polyamide cover is both inviting and practical as this covers the air valve of the inner tube and makes the swing easier to hold onto. Includes reinforced suspension bands. Requires inflation.

R521893 Child | Max weight supported: 80kg | 50cm internal diameter; 85cm external diameter

R521894 Maxi | Max weight supported: 100kg | 83cm internal diameter; 135cm external diameter

Fly & Glide

Suitable for individuals with movement difficulties. The swing can also be set in motion using the hands on the ground. Can be used in all body positions such as lying face down, on the back or sitting up. Height adjustable. Cover: brushed canvas (100% cotton).

R519234 Child | Suitable for a child 3 years+ | Max load: 100kg | 98 x 75cm | Ropes 105cm long

R522687 Adult | Suitable for an adult approx 150-200cm tall | Max load: 200kg | 153 x 79.5cm

R520034

Billowing Cushion by Rompa®

A foam base with air cushion creates an exciting Billowing Cushion. Moving around the cushion facilitates gross motor patterns and joint compression. Useful in Snoezelen® and Sensory Integration environments, it is a safe depth and is great for crashing on. PVC. Additional large item shipping surcharge. Non-returnable.

R512626 145 x 145cm

Co-operband

Can be used in schools for personal social health education as pupils work co-operatively in a group. Suitable for creative play and learning about forces and rebound. Will hold six to twelve participants. Size: 160cm diameter (unexpanded), 6cmW

R517409 160cm diameter (unexpanded), 6cmW

Octaband™

Participants pull on the resistance band 'arms' and receive proprioceptive feedback. Suitable for most ages and abilities. Machine washable.

R521367 8 arm Octaband™. For 2 – 8 people. Extends to 200cmL

Rondo

Encourage fitness, group play and teamwork. No-fail, co-operation ensures collective success. Stretchy and enveloping. High quality elastic single fabric with viscose rayon. Colours may vary. Size: 140cmH, extends to approximately 4m

R520029

Didicar®

Propelled forward just by turning the steering wheel to and fro. No batteries, motors or pedals. Tough moulded plastic is easily cleaned. Encourages exercise, physical development, balance, co-ordination, spatial and speed awareness. For 4 years and over. Colours may vary. Supports up to 100kg. Requires minimal assembly. Weight: 3.8kg.

R521340 80 x 30 x 25cm

Floor Surfer

An inviting roller board for play and therapy. Developed in partnership with physiotherapists to ensure safe use by any child irrespective of motor skills. With non-smudging and screened wheels to minimise the risk of running over fingers. Lightly tapered at the front to allow increased freedom of movement for the child's arms. The raised front part supports the coccyx when the child is sitting and the sternum when he/she is lying down. The narrowed sides at the centre act as handles. Maximum load: 100kg. Weight: 2.9kg.

R522647 56L x 37W x 14cmH

Scooter Board Paddle

Encourages movement and can help users manoeuvre their scooter board. Scooter Board shown for illustration purposes only. Design may vary subject to availability. Each. Size: approx. 100cmL

R522256

Adjustable Scooter Board with Tow Strap by Rompa®

For smaller clients simply use the smaller 35cm x 46cm Scooter Board. For larger clients, unlock the Scooter Board, insert and lock the extra leaf in place, and you have a 35cm x 60cm Scooter Board. Special covered padded board for added comfort. Made of varnished wood. Working Load 150lbs.

R513734 Length 45 - 60cm, 38cmW

Bikes, Tricycles & Scooters

Try Bike Wooden

The Trybike is more than just a balance bike. With its unique 4-in-1 concept it can grow alongside your child. For children aged as early as 15 months old the Trybike is an ideal support to learn how to walk. It can then grow and help your child balance and then ride.

The Trybike is made from durable weatherproof marine birch plywood. The seat cover and chin guard come in dark brown and are detachable so you can change colours.

1. Low Tricycle – The low tricycle offers young children lots of support to begin walking and riding. Ages 12 months – 2.5 years.
2. Low Bicycle – With a few simple steps, you can easily convert the low tricycle into a low bicycle. This is perfect for when your little one wants to move on to learning how to balance. Ages 2 – 4 years.
3. High Bicycle – Simply turn over the frame and adjust the seat to which ever height you like to create the highest wooden balance bike available. Ages 3.5 – 6 years.
4. High Tricycle – Perfect for children who want a bit of extra support. Ages 3.5 – 6 years.

R524410

Basic Roller Board

A Basic Roller Board which can be used sitting, lying or kneeling. Made of varnished wood. Suitable for indoor and outdoor use. Supports approximately 150kg. Rope not included.

R514589 60 x 35 x 12cm

CUSTOMER REVIEW

My son loves this and so do we, he is much more calm after using the roller board!

Encourages movement, visual tracking, spatial awareness, listening skills and motor planning. Inviting and engaging, to make therapy and exercise fun. Supplied deflated. For users up to 120kg (270 lbs). For 5 years and over.

R523060 Popcorn Ball | 50cm diameter

R523061 Popcorn Roll | 90cmL x 55cm diameter

Wheelchair Tunnel

Encourages inclusive activities – wheelchair users can go through the tunnel as can the more able bodied. Easy to assemble (pole system with fabric cover) and colourful. With nylon and see-through mesh panels. Great for spatial awareness and gross motor skills. Light-weight.

R520528 295L x 100W x 160cmH

Fun Tunnel

Hours of fun are possible with this heavy duty tunnel. Wiggle through it, roll over in it and peer through the transparent sides. Encourages gross motor skills. Fire retardant. Colours may vary. Size when extended: 182L x 60cm dia.

R519747

Roll Tunnel

Great for practising motor planning skills! Encourage clients to roll, rock, balance and turn. Colourful and inviting. Outer tunnel made of foam and PVC. Assembles in a couple of minutes. Can be quickly dismantled for flat storage. Weight limit: 75kg. Size: approximately 46cmW

R520077 86cm diameter

3 in 1 Rock and Play

Get ready to Rock & Play with this adorable 3-in-1 Rock & Play! It's the perfect blend of comfort and sturdiness, adding a dash of cuteness to any space. With extra padding for cozy adventures, this versatile gem can transform into a climbing bridge when flipped upside down or serve as a fun play surface when tipped on its side. One product, 3 ways to play!

R523657

Balanza® Ballstep®

The air-filled ball at each corner makes this no ordinary balance board. Suitable for a wide variety of ages and abilities. Helps build co-ordination and motor skills, as well as improving overall fitness. Each ball can be adjusted using a pump and needle allowing variations and new balance challenges. Wooden and sturdy. Maximum weight supported: 200kg. Weight: 5.15kg. Size: 89 x 43 x 14cm

R521933 89 x 43 x 14cm

Sit and Spin

Useful for hand-eye co-ordination, gross motor skills and exercise. Provides vestibular input that some children with sensory processing problems can crave. Fun and practical, this may help children to self-regulate, manage their behaviours and improve their confidence. Compact enough to be portable, and could be used outdoors (stored indoors). Maximum weight supported: 45kg. For 3 years and over. Minima assembly required.

R521834 55cm diameter x 30cmH

Body Wheel

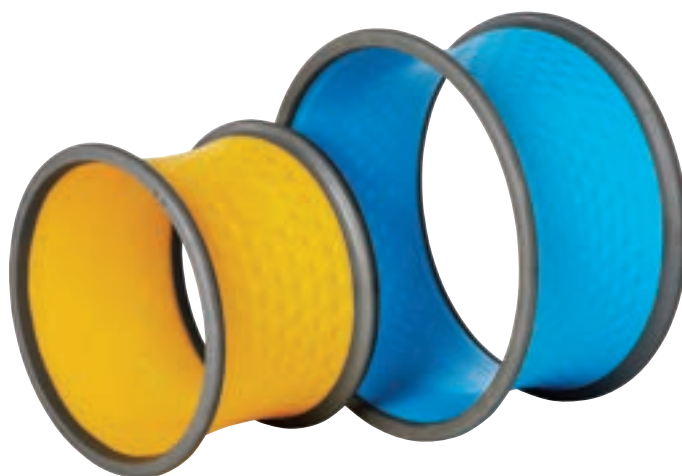

An activity challenge for children. Easy to set in motion, the wheel allows exercise opportunities to practise body agility, strength and balance. Use the wheel to roll while lying on the back/stomach or while standing. Especially effective when purchased in multiples, to create towers or tunnels. Encourages a range of movements including crawling, reaching and climbing. Made from fibreglass reinforced plastic with a soft rubber rim to protect fingers and floors. Each Body Wheel has a maximum load of 100 kg. For 3 years and over.

R523235 Large Body Wheel | Each | 29W x 59cm diameter

R523236 Small Body Wheel | 30W x 46cm diameter

R523237 Set of 2 Body Wheels – 1 Large, 1 Small

Balance

Curved Walking Board - Set of 10 pieces

Simple or complex walking challenges can be designed with this wall. The brightly coloured plastic components attach to each other forming a Walking Board which can be up to 10 pieces long. The 5cm wide non-slip surfaces come in random colours. Pressure tested to 600kg. Suitable footwear should be worn. Multiple sets shown with a 4-Way Connector.

R515229 30cmL x 17cmH (Base 15cm)

Hilltops – Set of 5

Provides opportunities to develop and stimulate gross motor skills, social skills and creativity. Brilliant for imaginative play and motor planning as users assess the heights and distances between the tops. With different heights and colours for variety and gradeable challenges. The rubber rim helps prevent slipping and protects the floor. Designed so they cannot overturn. Especially effective when used in multiples and when combined with Riverstones 16736. Maximum load: 100kg. Weight: 4.8kg. Size: two at 36L x 36W x 8.5cmH; two at 40.5L x 40.5W x 17cmH and one at 42L x 42W x 25.5cm.

R522644

Riverstones - Set of 6

Jump from 'stone' to 'stone' without touching the floor. Move as quickly as you can, imagining that the stones are hot. Useful for co-ordination, balance, spatial awareness and encouraging confidence. Made of stable synthetic material with a textured surface for better grip. Set of six stones of two sizes. Size: approx 43 x 43 x 43cm x 9cmH and 25 x 25 x 25 x 4cmH.

R516736 43 x 43 x 43cm x 9cmH* & 25 x 25 x 25 x 4cmH*

Step-A-Forest – Set of 24 pieces

Great for developing balance, co-ordination and motor skills. For individual use or as a group for collaborative and imaginative play skills. Separate pieces as well as a variety of shapes and heights allow the activity to be graded. Made from non-slip durable polypropylene plastic for easy cleaning. Includes 6 leaves (26.5L x 18.7W x 1.5cmH), 6 stumps (28.8L x 28W x 13.3cmH), 2 Y-shaped logs (46L x 37.4W x 6.4cmH), 8 logs (48L x 13.6W x 6.4cmH) and 2 storage bags.

R521832

Jumping Seat

Superb resource and great fun! This product has a flexible squishy base for bouncing, rocking and various movements. The top is flat with cut outs for gripping to stay seated and hold on during use. Great for proprioceptive input. Supports approximately 50kg. Colours may vary.

R519472 30.5cm diameter x 20cmH

Happy Hopperz

These wonderful inflatable creatures encourage hand-eye co-ordination, spatial and bodily awareness, confidence, exercise and balancing skills. Child-friendly, and appealing. Includes pump. Supports up to 100kg.

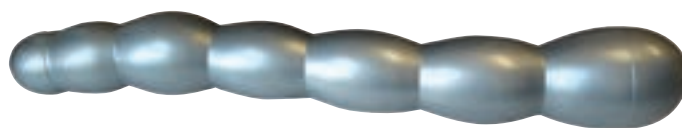

R523302 Turquoise Unicorn | Medium | 49L x 21W x 43cmH

Worm

The unique shape of this balance roll allows more movement possibilities and can encourage imaginative play. Suited to younger children. For 12 months and over.

R521471 105L x 15cm diameter

Hip Hop Jumping Mat

The suspension system is completely integrated inside (no exposed springs nor hard frame) whilst a non-slip base provides stability. The sides are made of easy-to-clean synthetic leather (polychloride, polyester and cotton mix). The top has a dark grey woven fabric (acrylic, polychloride and polyester mix) which can be steam-cleaned or cleaned with an upholstery cleaner.

R523336 Small | Typically red | Max user weight: 40kg | 107L x 70W x 17cmH

R523285 Large | Typically blue | Max user weight: 70kg | 130L x 90W x 25cmH

Trampoline by Rompa®

Useful for alerting activities as part of sensory circuits in schools at the start of the day - helps awaken some children and helps others to use some energy to help them better focus on learning later in the classroom.

Can support weight up to 60kg. For indoor use only. Size: 120 x 120 x 33cmH; handrail 61cmH (floor to top). Additional large item shipping surcharge.

R513233

Balance Board

The most complete and functional balance board! Allows users to swing safely from side-to-side thanks to the non-slip hexagons on the soft rubber base, preventing damage to the ground. With lateral pivots on the base, children can move their weight and use the handles to make turns and lateral movements, exercising muscles, mechanical balance and proprioceptive stimulation.

Available in light green, fuchsia and dark blue - selected at random. Weight: 1.8 kg. Maximum load: 60 kg.

R524052 60.8L x 30.4W x 16.0H mm

Balance

Balanza® Seesaw

Helps build co-ordination and balance skills, and an awareness of rhythm. Use indoors or out. The unique design attracts attention and draws youngsters to it. Birchwood with resilient Ruten balls and leather handles. Each ball can be individually adjusted with a pump and needle (included). Maximum weight supported: 150kg. Size: 120 x 50 x 41cm

R521934

Bilibo

Sit in and rock, spin, or climb on, so many options are possible. The soft, round shapes stimulate the senses and can help develop motor skills and a sense of balance. Can be used in or outdoor. For 2-7 years. Colours may vary. Made from durable high density polyethylene. Non-toxic material. Weight 800g.

R519506 39 x 39 x 22cm

Seesaw

Pliable synthetic rubber domes on the underside ends and on the base of the pivot provide a softer, more dynamic movement and help protect the floor. Plastic, with a non-slip surface. Maximum load: 75kg. Weight: 1.4kg. Size: 52L x 22W x 14cmH

R522648 52L x 22W x 14cmH

Spin & Explore Garden Gym™

Colourful, inviting mat with detachable, rotating, cushioned support. Lots to discover, explore and enjoy. Each petal has a unique feature. Visual, tactile and audible. Baby can be turned round 360°. Washable. From birth onwards. Maximum weight supported: 22 lbs, 10 kg. Size: 68cm diameter mat, 30cmL platform.

R519721

Teeter Popper

Kids find themselves teetering on the brink of perfect physical play. No special skills are needed. In playful exploration, Teeter Popper improves core strength, stability, leg strength, balance, coordination, and gross-motor skills. A cinch to manoeuvre - stand, sit, rock, tilt, wobble, wiggle, spin. How children play is however they choose.

R524190

Using Visual Perception

The visual sense provides us with details about what we see and helps us define boundaries as our brains process colour, contrast, shape, size and movement.

The following products have been designed and selected for the benefits they provide in enabling users to develop their visual experience in regards to visual tracking or peripheral vision.

These carefully chosen resources are tailored to support the enhancement of visual engagement, from stimulating curiosity through vibrant colours to encouraging interaction with varied shapes and patterns. By fostering exploration of contrast, movement, and depth, these tools can help individuals build essential visual processing skills, ultimately contributing to their confidence and spatial awareness in everyday activities.

UV & Glow-in-the-dark

Ultraviolet Abstract Tactile Panel by Rompa®

All the tactile appeal of this popular panel with the increased visual appeal of ultra-violet-responsive features. An engaging combination of textures, touch experiences, temperature contrasts and eye-catching focal points. Install in a darkened environment with an UV light nearby. To be wall-mounted. Please purchase fixings appropriate to the construction of your wall. Wooden frame. Available in a standard or midi size to suit room specifications. Additional large item shipping surcharge.

R522588 Standard 115 x 115 x 10.5D cm | 17kg

R523453 Midi 57.5L x 115H x 3.5D cm | 13kg

UV LED Light Strip System

Includes 5m of self-adhesive UV LED Light Strip and 12V power supply. No need for UV tube or bulb changes. Can be cut to a different length if required. Can be used in water environments (professional installation recommended).

R521462

LED Blacklight

Use with fluorescent and glow products to enhance the visual effect. 30W. 220-240V. Weight: 0.8kg.

R522970 51L x 6 x 5cm

UV Lantern with Torch

2-in-1 portable lantern. Fitted with a 6W 10cm UV tube with reflector for maximum light output. Includes 4 AA batteries.

R518888 16L x 5.5W x 2cmD

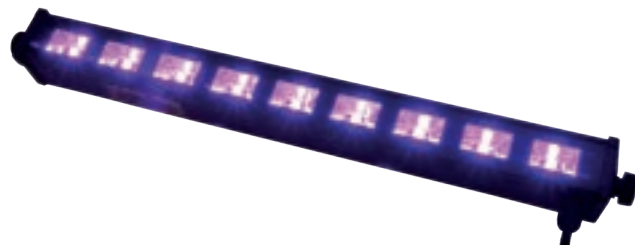

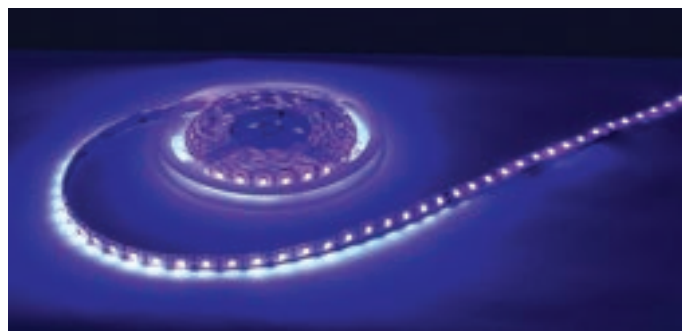

Sensory Den

Dark 'tent' that can be easily assembled and taken apart then compactly stored away. A flap over the entrance (and window on the Standard size) blocks light from entering when down, or can be left open to maintain contact/supervision. Includes storage bag. Portable.

R523304 Standard | 100 x 100 x 100cm

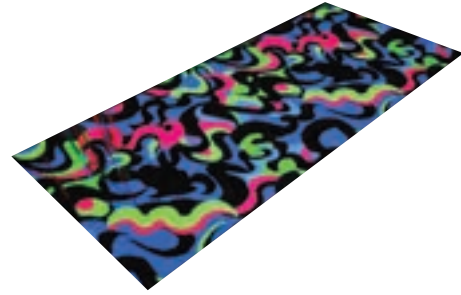

R523305 Giant | 120 x 120 x 180cmH

UV & Glow-in-the-dark

UV Carpet Mat

This colourful high quality carpet mat glows in vivid fluorescent colours when under ultra violet lights. Lay the carpet on existing floor/cushioning or attach to a wall.

R520278 182cm x 91cm

Glow Starry Night Parachute

Glow in the dark fluorescent stars shine brightly against the navy blue nylon 'sky' background. Provides visual stimulation and opportunities for social activity and interaction. Handles make the parachute easier to hold and move. Requires a UV light (to be purchased separately).

R517637 365cm diameter (12ft)

Star Seat

Cosmically comfy! Use flat for several children or against a wall for back support for an individual. UV-reflective star print adds visual interest and can be used to theme a room or prompt conversation. Especially effective when used next to acrylic wall mirrors. Filled with fire-retardant bead. Hard-wearing polyester is water-resistant and can be wiped clean. For indoor or outdoor use (store inside). Blue-green blend as standard. Bead and fabric tested separately for fire-retardancy.

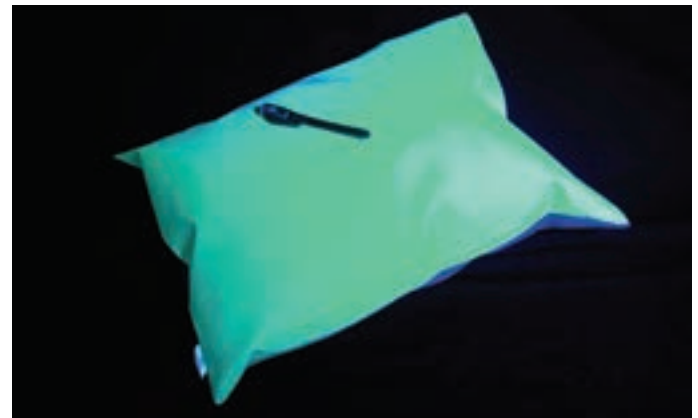

R523400 125L x 100cmW

Glow Cushion

Soft, brushed nylon cushion with a trim that glows in darkened environments. The safe glow effect is recharged by exposure to light/sun. The red cushion offers auditory as well as visual and tactile stimulation. Includes light pen (mini torch). Each.

R523394 Red | 25L x 25W x 8cmH

R523395 Blue | 52L x 32W x 10cmH

Fluorescent Linelite Wand

Flexible and easy to handle this reflective wand is a useful addition to a sensory room. Seven strands of colour flow from a wooden handle. When waved under UV lighting changing patterns are created. Size: Handle 11cm, Strands 30cm.

R515676

UV & Glow-in-the-dark

Oogi Glow

A fabulous fidget family! Each one is tactile, visual and his suction cups can be used to create audible feedback and to 'stick' to smooth surfaces. Pliable, poseable and stretchy. Great for imaginative play – spot him doing yoga, floating in the bath or exploring his reflection in mirrors. Glows in the dark – 'charge' under a bright light first. Made from high-quality food-grade silicone rubber. Durable and easy to clean. Especially effective when purchased in multiples. For 3 years and over.

R523262 Oogi Glow | 13cmH

R523263 Oogi Glow Junior | 8cm

UV Scarves - Set of 3

Provides additional visual appeal to juggling, dancing, throwing and catching. Light enough for the frailest hands. Watch them float gracefully down. Colours may vary. Nylon.

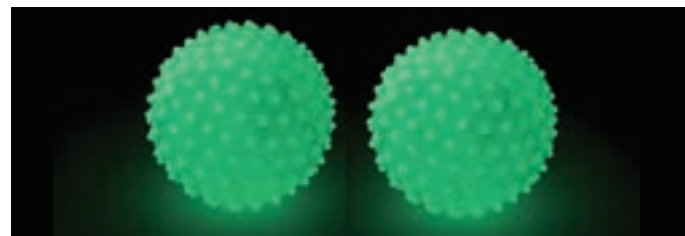

R518979 65 x 65cm

Glow in the Dark Sensory Ball

Tactile, visual and inviting. Soft with a bumpy surface. Supplied inflated. For 6 months and over.

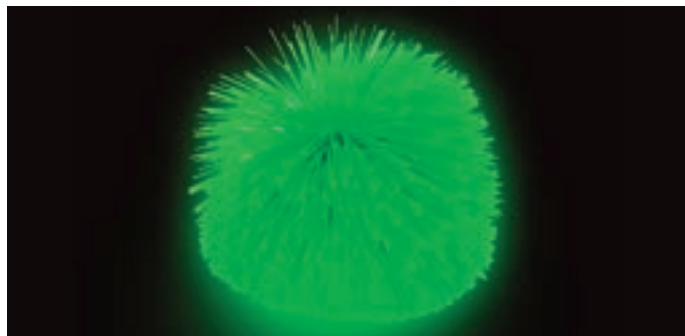

R522132 18cm diameter

Glow Koosh Ball

Tactile and visual – it glows when exposed to UV light. Great to explore in darkened environments, and a lovely fidget. Rubber. For 3 years and over. Each. Weight: approx. 135g

R523122 10cm diameter

Fluorescent Tube Drum

Watch the coloured beads move and hear the beautiful, gentle sounds as you turn the drum. Drum turns smoothly with minimal effort. With a solid 2cm thick base to keep the drum steady. Especially effective under UV lighting.

R516330 27 x 20 x 20cmH

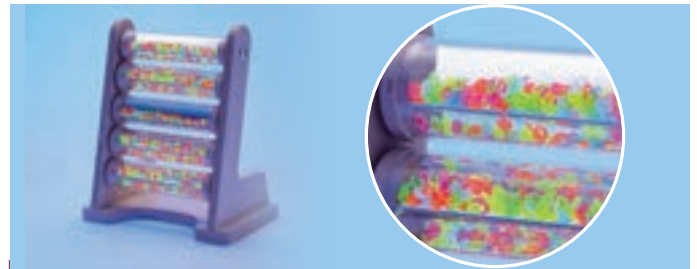

UV & Glow-in-the-dark

Fluorescent Tube Ladder

Each tube can be turned at the slightest touch. Visually and audibly appealing. Well-made with no loose parts. Especially effective under UV lighting.

R515950 23 x 16 x 27cmH

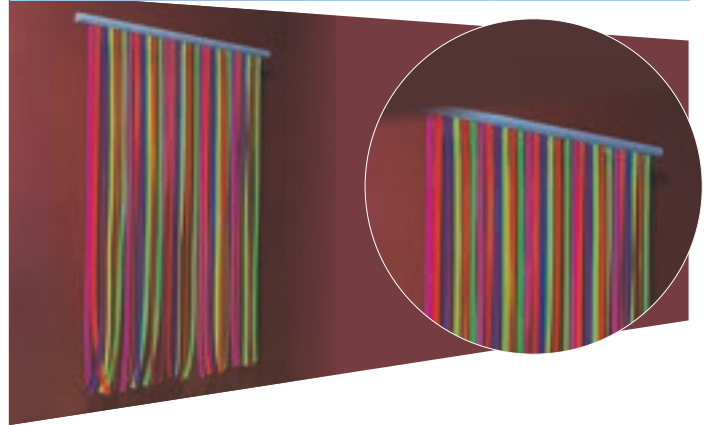

Ultraviolet Waterfall

Visual and tactile, this curtain of UV-responsive, latex-free and phthalate-free PVC strips stimulates the senses and provides a glowing focal point in a darkened room. To be wall-mounted using the incorporated cantilever bracket (additional appropriate fixtures may need to be purchased separately). Radiant in daylight, but we recommend the use a UV light to best appreciate the neon effect (not included). Not intended to be pulled, swung on or vigorously handled. Weight: 3.9kg.

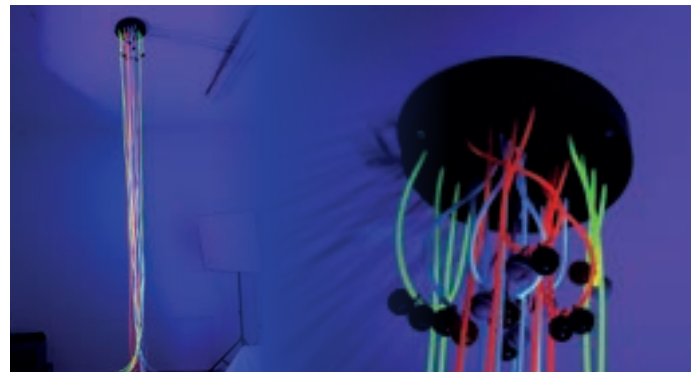

R522260 100W x 200cmH

LineLite Shower

Stand amongst or move through the multi-coloured LineLite strands. Simple yet engaging design. Install in a darkened environment with an Ultraviolet light nearby to make the strands glow most vividly and a black ceiling mount to blend into the UV environment. With bells for auditory appeal. Wooden disc ceiling mount: 20cm diameter. Strands: Approx. 140cm and 0.4cm diameter.

R523447

LineLite Door Panel

Brighten up your doorway with this tactile LineLite door panel! Install in a darkened environment with an Ultraviolet light nearby to make the strands glow most vividly and a black door mount to blend into the UV environment. With positionable bells for auditory appeal. Wooden door mount: XYZ. Strands: Approx. 140cm and 0.4cm diameter.

R523448

Glowbright Unicorn Putty

A mythical symbol of beauty and strength, the unicorn has fascinated people throughout the ages. Believe in magic with Enchanting Unicorn Thinking Putty®. It charms with a rainbow of neon confetti, shines with golden glitter, and glows a pretty pink in the dark.

Thinking Putty® helps build hand and finger strength through a fabulous tactile play experience with unique, unexpected properties and provides relaxing, yet stimulating interaction for anyone with sensory integration issues.

R524421

UV & Glow-in-the-dark

Dream Beams - Chris the Cocoon Plush Toy

Chris the Cocoon Dream Beams soft plush toy, adorably soft and has a unique glow-in-the-dark feature. They are designed to offer emotional support and stress relief by offering a multi-sensory experience through cuddling, squeezing, and providing comfort with their glow-in-the-dark features. Plush toys are great for emotional development. 0+ months

R523552

Needoh Moon & Stars Glow in The Dark Squish Ball

Glow-In-The-Dark Needoh is a groovy glob with a green glow. This unique stress ball and fidget toy can be squeezed, squished and pulled and popped - the perfect way to lighten up your mood when the dark of the night arrives. Glow In The Dark Needoh also helps aid focus and attention. Perfect for safe, stretchy fun and as a Nee Doh Stress Ball. Suitable for 3 years +.

R523551

Glow In The Dark Bangles

Glow in the dark bangles, suitable for mild chewers with a twist or tread effect for texture. Made from soft and flexible silicone. The glow in the dark effect adds to the stimulation, making this visual and tactile. One size – for children. Two versions available, both 5.5cm diameter.

R523280 Tread Textured Glow Bangle | Set of 1

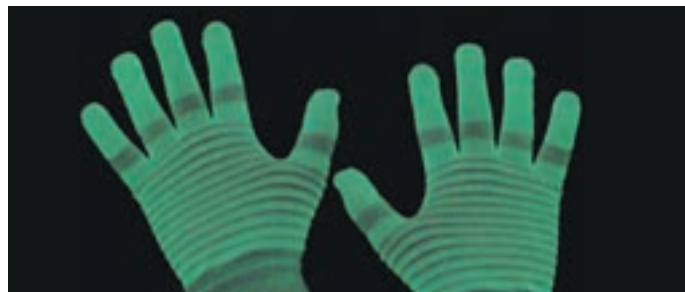

R523295 Twisted Textured Glow Bangle | Set of 2

Glow Gloves

Excellent for sign-language users in the dark. Practical outside at night, they also engage youngsters inside in darkened environments and can help children focus on the signing. 'Charged up' from the sun or a bright light, they glow for up to 2 hours each time. One size fits all.

R520423

Stick and Glow Stars

Fascinating glow in the dark stars

- 3 different sizes.
- Re-usable.
- Includes 25 stars and adhesive pads.
- Latex-free.

R524051

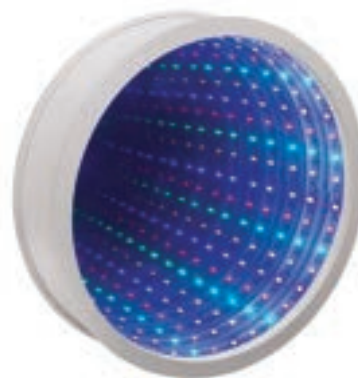

Infinity Lights Mirror

Creates the illusion of coloured lights beyond the depth of the mirror. Functions as a mirror when switched off. Economical yet extremely visually effective. Requires 3 AA batteries (separately) or can be powered through the included USB cable. With a keyhole in the back for wall-mounting. Not a toy – this is for decorative purposes only and is not intended for vigorous handling or play. Weight: 400g.

R523114 22.5cm diameter x 4.6cmD

Wooden Mirror Tray

Our solid beechwood mirror tray is ideal for children to learn about reflection and mirror effects, to closely inspect interesting objects, for use in imaginative play and to create small world environments. The solid construction provides a stable base for the 2mm acrylic mirrored base, providing a sharp clear bright reflection. Supports the following areas of learning:

- Understanding the World - observation
- Personal Development - self-awareness

R524209 50 x 43.5 x 5 cm

Colour Acrylic Mirrors – Set of 6

Double the visual appeal – reflective and colourful. Makes exploration and discovery even more engaging.

R520510 15 x 15 x 0.15cmD

Engage & Discover through Tactile

The sense of touch connects us to the world around us, helping us explore, communicate, and learn in essential ways. Our tactile abilities are not only vital for development but also for everyday discovery and interaction.

In the Tactile section, you'll find an exciting array of products designed to enhance tactile exploration:

- Engaging wall panels
- Interactive tabletop resources
- Hands-on activity boards
- Fun tactile games
- Soothing vibration and massage tools
- Fidgets for focus
- Cushions and blankets for comfort
- Convenient saver packs

Abstract Tactile Panel by Rompa®

Aesthetically charming as well as highly tactile. A large variety of fluid shapes, raised and recessed areas as well as contrasting textures make this contemporary looking panel as pleasing to the touch as to the eye. Textures have been carefully chosen to offer a range of temperatures, softness/hardness, smoothness/coarseness and include fabric, tile, carpet, synthetic turf and safety mirror. To be wall mounted. Wooden frame. Colours and features may vary. Available in a standard or midi size to suit room specifications. Additional large item shipping surcharge.

R523676

Tactile Tree Panel

Each colourful circle has its own fun tactile pattern just waiting for you to explore. Plus, a charming little squirrel that scurries up and down the tree. It's a fantastic choice for creating a themed room that feels warm and inviting, unlike typical abstract products. Enjoy your journey of exploration! Additional large item shipping surcharge.

R523675

Tracking Panel

With chunky double-ended pegs designed to aid colour association by putting them in the correct holes and matching the colours. The panel utilises thick handles on the gears for ease of use and a variety of shapes and lines to encourage visual and auditory tracking, reasoning, hand-eye co-ordination and an understanding of early STEM. Dimensions: 115L x 115H x 24D cm. Weight: 25kg. Additional large item shipping surcharge.

R523450

Musical Tactile Panel

Stimulating sounds, engaging activity and inviting textures. Lovely for exploring, comparing, learning and enjoying. Promotes social skills (conversation, listening skills and turn-taking) as well as imaginative and creative interaction. Colours and features may vary. To be wall-mounted in the orientation shown. Available in a standard or midi size to suit room specifications. Additional large item shipping surcharge.

R523679 Standard 115L x 115H x 10.5D cm | 17kg

R523452 Midi 57.5L x 115H x 3.5D cm | 14kg

Wall Panels

Knocker Panel

Tactile and auditory stimulation, with cause and effect to reward the user as they knock and lock different sections of the panel. Add balls to the guttering to bring another sense of play, listen to the rattling as they fall down and watch them pop out the end. Grab a piece of chalk and draw away on the blackboard roof to boost creativity. Perfect for encouraging investigation, curiosity and motor skills. Dimensions: 115L x 115H x 24D cm. Weight: 40kg. Additional large item shipping surcharge.

R523449

Sensory Pictures

For person-centred care, these can be comforting and an easy way to personalise an indoor space. Contact us to discuss your requirements – other sizes, motifs, backgrounds and colours are available. Send us your ideas, we make bespoke.

Activity Wall Panel Set

Set of wall activity panels to engage children in cross-curricular learning. Panels are styled as a brown horse with wire beads and moving gears, a yellow giraffe with fruit puzzle blocks to mix and complete, and a black and white zebra with colourful shapes to identify and match.

Supports the following areas of learning:

R524203 550H x 360W x 35D cm

Animal Activity Wall Panel

Provides a range of manipulative activities for youngsters, including groups. Inviting, visual and tactile. The Crocodile is also audible, having percussion instruments. Develops hand-eye co-ordination, dexterity, fine motor skills, reasoning, problem-solving and language development (describing activities). Great for imaginative and collaborative play. To be wall-mounted indoors. For 12 months and over.

R523126 Crocodile | 174.5L cm in total (5 sections) | Head 36cm | Front/Hind Legs & Middle 34.7cm | Tail 34.4cm

R523127 Bear | 91L x 32H cm

Wall Panels

Aeroplane Activity Wall Panel

Eye-catching panel to explore. Attractive and useful. Encourages hand-eye co-ordination, fine motor skills, social interaction, problem-solving, early maths skills (shape, time, counting) and conversation. Made up of fully-assembled 5 pieces. To be wall-mounted indoors. For 12 months and over

R523125 180L x 60W x 5cmD

Rotating 'Rainfall' Panels

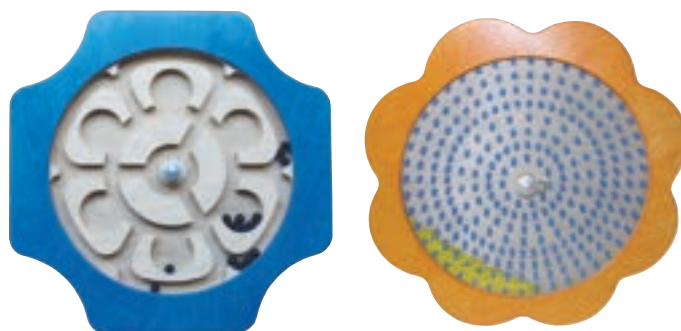

Visual and audible – the encased beads make a delightful 'rain' sound as they fall. Bright colours and eye-catching when moved. Each includes a wall-mountable wooden rotator so the panel can be carefully spun. Easily detaches from the wall if required for table top/lap use. Encourage motor skills and hand-eye co-ordination. For indoor use only. For 3 years and over. Size: 48L x 57W x 5cmH (without rotator). ROMPA® can incorporate these delightful panels and many of our products into a themed area – call us today for further information.

R520785 Butterfly Panel

R520786 Labyrinth Panel

R520787 Flower Panel

Mindful Maze Set

The Mindful Maze Set is a tactile way to cultivate mindfulness and calmness and help with social-emotional learning (SEL) through 6 guided breathing exercises. The set comes with 3 double-sided boards that each have an engaging design. Using fingers, trace the designs whilst breathing in and out as directed by the design of the board. Six designs include cloverleaf, lion, maze path, rainbow, star, and waves.

R524163 20.32 x 20.32 x 3.81 cm

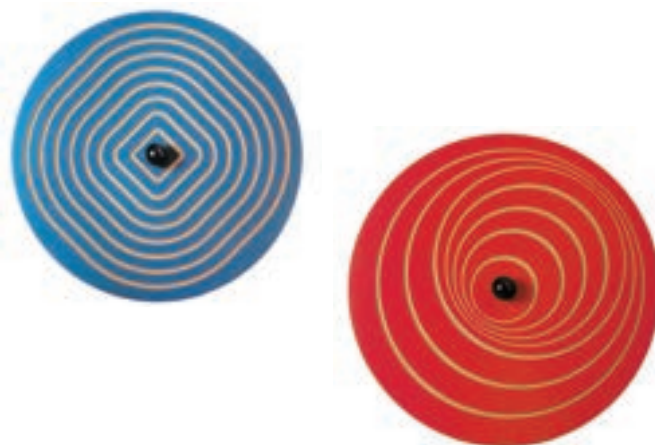

Spin 'n' Stare

Double-sided, boldly-coloured circular panel for optical illusions and visual marvels! Quickly and easily reversed. Minimal strength required to rotate the panel. For wall-mounting - fixtures included. Well made from 12mm thick MDF. Perfect for corridors to amuse passers-by of all ages. Size: 63cm diameter

R518297 Blue Spiral/Red Flower

R523050 Blue Rounded Squares/Red Concentric Circles

Wooden Shapes Stacker

A beautiful beechwood 7-layer stacking puzzle, with 12 surprise shapes hidden inside. The smooth natural solid wooden shapes must be fitted correctly into their matching holes in each rainbow colour panel, then the panels can be layered to complete the stack. Size: 92mm x 123mm x 123mm. 19 piece set. 12+ months

R523559

Dream Activity Cube

Perfect for early learning, the Dream Activity Cube is packed full of exciting activities to keep little ones engaged. Each side has a colourful challenge to develop their motor skills while they play, including bead mazes, peg sliders and a shape abacus. Made from eco-friendly wood and non-toxic paints, it's safe for kids plus kind to the environment as well. If space is tight or for neat tidying, you can turn the top with the bead maze over, transforming it into a compact cube.

R524031 30 x 28 x 40cm

Pyramid Activity Box

This wooden pyramid activity box toy from Classic World will bring your child endless fun. Designed in a much more interesting tetrahedron (there you go - your new word for the day) structure, the discovery box can be rolled like a ball in whichever direction they like. There's fun on every side - musical instruments, shape sorting, casual relationships and animals to learn and discover.

R524033 33 x 35 x 29cm

Activities

Magnetic Fishing Kit

Here's a collection of brightly coloured fish that can be hooked up with a handy magnetic rod. Each has its own place on the board which requires a little skill and concentration! Great for improving dexterity and hand/eye coordination. Fish out the most creatures using the magnetic rods to be declared the winner! Fish out the colourful creepy crawlies using the magnetic rods supplied. Dinosaur mad youngsters will have plenty of roarsome fun with the Magnetic Dino Fun game. Numbers on the baseboard encourage counting & help with scoring.

R524377

Tactile Patch Match – Set of 20

10 pairs of textured squares to match by touch (or colour). Includes storage bag. The contrasting materials include corduroy, fur, Velcro®, mesh, poly cotton and silk. Size: squares 8 x 8cm, bag 27 x 17cm

R523084 Squares 8 x 8cm | Bag 27 x 17cm

Sensory Squares - Set of 12

Bright, colourful appliqué motifs on one side, black and white patterns on the reverse for shape recognition, different fillings and thicknesses for contrasting textures and weights and different sounds.

R516634 10 x 10cm

Lace A Picture

Thread the laces through the shapes and onto the baseboard to create imaginative geometric designs. Wooden threading toys are a fun way to develop or maintain hand-eye coordination, fine motor and sequencing skills. Featuring 44 different geometric shapes and six different coloured laces. 3+ years

R523550

Fidgipod

Get instant sensory stimulation and input with these highly popular fidgipods. Useful for anyone who seek sensory input for calming. The non-skid bottom allows users to place the fidgipod on any flat surface and run their palm or foot over it for sensory stimulation. FDA approved latex, bp and phthalate free material. Colours may vary.

R524291

Peek-a-Boo Bags

Introducing Peek-a-Boo Bag, the ultimate exploration experience for little ones! These bags are available in farm, ocean, and space themes. Each bag features a non-slip silicone back for stability during play. When you flip the bag over, you'll discover a tactile maze feature on the back, providing additional sensory stimulation and excitement.

Balls

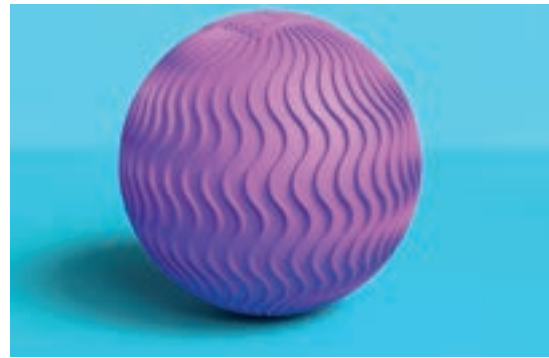

Super Needoh Ripple

A ripply, swirly, wavy, wurly, curvy, curly supersized squishy Super Needoh. Available in four eye-catching shades, including pink, purple, green and orange (colour is chosen at random and may vary).

Made from a non-toxic, dough-like material. Ideal gift idea or stocking filler for children aged 3+ years.

R523593

Super Nee-Doh

Super-sized version of the Nee-Doh stress ball that's very squidgy and stretchy. This brightly coloured groovy glob is the perfect tool to help anyone unwind and relieve stress. Colour chosen at random. Each.

R524045 11.43 x 11.43 x 11.43 cm

Nee-Doh

This Nee-Doh groovy glob is the perfect tool to help you unwind and relieve stress. Colour chosen at random.

R524044 6.35 x 6.35 x 6.35 cm

Needoh Stickums

Stickums is a pack of 12 NeeDoh balls in five glow-in-the-dark colours (chosen at random). Instead of being filled with dough like regular NeeDohs, they're filled with air.

These unique Nee Doh stress balls also have a sticky skin that means not only can they be squished and squashed, but they can be thrown at walls, windows, ceilings and any flat surface for fun.

R523545

Colour Change Nee-Doh

Colour Changing Nee-Doh is the Groovy Glob that magically changes colour with a squeeze. When let go it changes back. Colour is chosen at random. Each.

R524042 6.4cm

Neon Diddy Squish Ball Pack of 3

Need to mellow out? The colourful squish balls are the Groovy Globbs that excite your eyes while they soothe your soul. Squeeze the fidget toy and travel to a new dimension of colour. Pack Size: 3. Material: Rubber. Suitable for ages 5+.

R524149

Nee-Doh Atomic

Just give it a squeeze, and one turns to many! The growing globs magically change colours and are filled with a super-soft compound. Give Atomic Nee-Doh a squish or a pull it will always return back to its original shape!

R524303

Needoh Gum Drop

This vibrant Needoh is shaped like a big gumdrop sweet. It comes in four assorted colours (picked at random). Safe and non-toxic, child-friendly and portable.

R523592

ATOM Jumble Ball

The Jumbly Fidget Balls are made from 20 turning and intertwining balls that allow you to bend, twist and jumble the shape into near endless configurations. 3+ years.

R523555

Hide Inside Putty

Search through this Hide Inside Putty to find all six unique pieces hidden away as you stretch, mold, bounce and tear the putty, if you look close enough you'll always find what you're looking for. Non-toxic, won't dry out, and won't leave a sticky or slippery residue on fingers.

R524413

Emotions Putty

Trendsetters Putty

Explore Egyptian scarab beetles through messy play - this putty can be used for tactile, creative play. This blend of slime and playdough can be shaped, torn and even bounced. Non-toxic, won't dry out, and won't leave a sticky or slippery residue on fingers.

R524419

Super Scarab Putty

Clever Putty

Putty anyone? This one is silver coloured and can be moulded, twisted, torn, crumpled into a ball that, in its turn, can be bounced off the floor or the wall.

R524027

8.31 x 8.31 x 2.9 cm

Dimpl

Built safely into the sturdy ABS plastic frame are five vibrant BPA-free, 100% food-grade silicone bubbles in varying sizes and colours to encourage fine motor skills, sensory exploration and cause-effect learning.

R524178

Dimpl Duo

Textures, colours, shapes, and words! On one side, each silicone button is embossed with a different shape and labelled with its matching word in English and in Braille. Flip the whole thing over and this time, the buttons are smooth and the words match the colours! It's a tactile delight to touch, push, and pop. Its compact size is perfect for on-the-go. BPA-Free made with food-grade silicone buttons and designed just right for little hands, the Dimpl Duo is an ideal way to get the most out of sensory play.

R524179 22 x 4 x 19 cm

Dimpl Digits

Touch, push, pop, and learn! On one side, the bubbles are embossed with the numerals 1 through 10, each accompanied by its matching word in English. Flip it over and you'll find the words written in Spanish, plus dots to feel and count! Learn in a new, tactile way with Dimpl Digits!

R524180 20.32 x 20.32 x 3.17 cm

Rainbow Emotion Push Poppers

A person builds social-emotional learning and sensory skills every time they fidget with the Rainbow Emotion Fidget Poppers. Made from soft silicone, each one sports one of 5 emoji-style faces that help identify for a person to talk about their feelings. 3+ years

R523563

Push Popper Caterpillar Light Up

Pop and stick this glowing caterpillar to different surfaces and watch it light up! With a suction bottom and raised bubbles, this caterpillar can be easily stuck down and popped for tactile fun. An easy fidget toy for focusing attention and sensory stimulation. Colour may vary.

R524526

R59958 35 x 27 x 9cm

Importance of Auditory

One of the main senses we have is hearing. Sounds are an essential part of the Snoezelen® concept. Sounds can create context to an environment and the range of products we provide to our customers focus on:

- Pitch
- Tone
- Rhythm
- Volume
- Sequencing

This creates a combination for an appropriate auditory experience and environment for our users.

In this section, we have used our years experience to provide a wide range of products that will bring pleasure to our users.

Nostalgia Music Centre

It may look like something from the past but its features are contemporary! Features: 33/45/78 rpm turntable, draw loading CD player, MW-FM Stereo Radio, Cassette Player, Line Out Socket and Line In Socket.

R520525 29W x 34D x 23H cm

Ear Defenders

Help avoid sensory overload and audible distractions and so encourage focus and concentration. Colour may vary. SNR:25. One size (best suited for older children to adults). The bar across the top of the head typically extends from 30-47cm.

R519663

Ear Muffs (Children/Teens)

Minimises noise and distraction, facilitates concentration and may help reduce hearing damage. Adapts to any head shape. The lateral height can be adjusted quickly and easily. Foldable for compact storage. Size: 8W x 10.5cmH.

R523020 Blue

R523021 Green

R523022 Pink

Pluggies

Earplugs with special filters, they muffle sound whilst allowing the person to retain some hearing, reducing any sense of isolation. Made of a soft material that fits comfortably in the ear.

R521873 Childrens

R523009 Adults

Vibes Earplugs

Reusable earplugs designed for sound quality. Vibes lower the volume of all sounds equally, from bass to treble, which allows you to hear sound clearly, just at a quieter volume.

R524174

- 26 calming sounds
- 50+ hours of battery life
- White & coloured night light with sleep timer

R523618

Importance of Aroma

The olfactory system is a very powerful and emotive sense. Aromas can trigger memories, encourage feelings and even change mood. It enables us to identify objects and/or foods which affects our perception of tastes.

When used as part of a Snoezelen® Multi-Sensory equipment, aroma can add an extra level of sensory relaxation or stimulation. Rompa® provides a range of aroma sensory equipment and accessories, such as essential oils and room sprays.

Aromatherapy Kit by Rompa®

Compact wooden case that allows the user to store the 12 oils upright. Note: it is recommended that this kit be used by someone who has attended an aromatherapy course (such as ISPA or IFA) and has sufficient knowledge for its safe application. Oils: Bergamot, Eucalyptus, Geranium, Grapefruit, Ho Wood, Lavender, May Chang, Peppermint, Rosemary, Sweet Orange, Tea Tree, and Ylang Ylang.

R514032 15L x 11.5W x 9cmH

Aromatherapy Blends Kit by Rompa®

Contents may vary, but typically includes handy storage box to keep bottles upright and twelve 10ml glass bottles of relaxing and alerting blends, including Equilibrium, Mobility, Prevention, Refresh and De-Stress.

R523246 15L x 11.5W x 9cmH

Aroma Oil Blends – Set of 4

A great starter set containing both calming and invigorating aromas. 10ml glass bottles. Includes:

- Refresh – uplifting and elevating
- Relaxation – soothing and restorative
- Daybreak – rejuvenating citrus
- De-Stress – provides respite from daily tensions

R523250

Smell Box

A collection of 12 different aromas including: carnation, lemon, dentist, apple, pear drops, newly-cut grass, lily of the valley, leather, marzipan, hyacinth, germolene-like scrnt, lavender. With storage box. Bottles have drop-dispenser tops.

R552084 14.5L x 12W x 7.5cmH, bottles 6.5cmH

Aroma Roll

More able individuals can roll the blend onto wrists, temples or pulse points – this can provide distraction as well as scent. Not to be ingested. 10ml glass bottle. Size: 1.5cm diameter x 8cmH

R523251 Lavender – relaxing (100% organic)

R523253 Relaxation – to help soothe and unwind (97% organic)

Diffusers

Natural Aroma Room Spray

Provides a pleasant aroma in your room or vehicle. Intended to fragrance the air, not furnishings nor objects. Not to be ingested. 30ml glass bottle. Size: 2.6cm diameter x 11cmH

R523255 Lavender

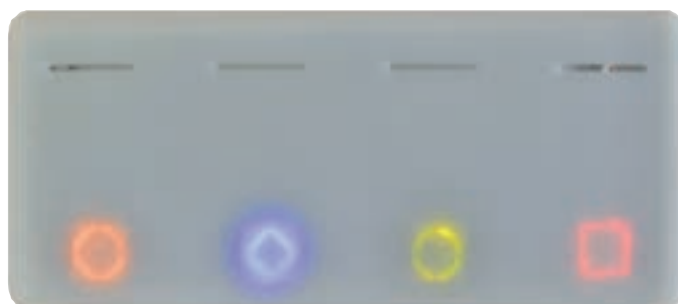

R523257 Relaxation

Interactive Aroma Panel by Rompa®

Activate smells, colours, sounds and breezes for aromatic, visual, audible and tactile stimulation. LED lights indicate which aroma is being diffused. Compatible with Sensory Magic® and our ever-improving range of wireless controllers, this panel can be controlled easily and remotely. Includes 4 aromas (more available separately). The integral fans have 2 speed settings. The shaped buttons are identifiable by touch for those with visual impairments. To be wall-mounted (horizontally or vertically). Frosted opal finish only.

R520943 60 x 25 x 10.5cm

Aroma Mist Diffuser

Stylish and contemporary diffuser for use with essential oils and blends to fragrance your surroundings within a 10-20m range. Ultrasonic, so not heat or flame operated. With mood lighting – choose colour phrasing or a single colour to create a relaxing atmosphere. Includes auto shut-off, mini humidifier and low energy consumption features. Power adapter (24V DC, rated power 12W) and filling cup included. For aromatic purposes – not intended to be handled.

R523248 9cm diameter x 17cmH | Includes free Goodnight blend

R523247 9cm diameter x 17cmH | Includes free Refresh blend

3-in-1 Aroma Lamp with Speaker

Multi-sensory and marvellous! Compact and modern design.

- Colour changing atmospheric mood lamp
- Aroma diffuser with humidifier (mist effect)
- Wirelessly plays music (compatible with Android and iPhone through Bluetooth)
- Mains powered (24V AC adapter included).

R523116 14cm diameter x 11.5cmH

Aroma Huggabuddies

Super soft and super sensory! Cuddly and can be warmed in the microwave. Pleasantly heavy – sits in the small of your arm like a baby. Pleasant lavender aroma. For 3 years and over. Not suitable for Oral Sensory Seekers. Huggabuddies may vary slightly from those shown.

R521503 Elephant | 21H x 16W x 20cmL

R521504 Giraffe | 21H x 16W x 20cmL

R522291 Cat | 21H x 16W x 20cmL

Scented Sound Die

Multi-sensory die - tactile, aromatic and with a bell inside for auditory appeal. Colours/aromas include green/mint, pink/strawberry, blue/aniseed and yellow/lemon. Colours and aroma may vary. Each.

R518478 15 x 15 x 15cm

Scented Crystal Bell Balls - Set of 6

A delight to see, hear, smell, touch, throw, bounce and squeeze. These sparkling, low bounce, hollow balls have a lively jingle bell inside. Made from fused plastic pellets, they are easy to grip. Assorted colours. Size: 6cm diameter

R515227

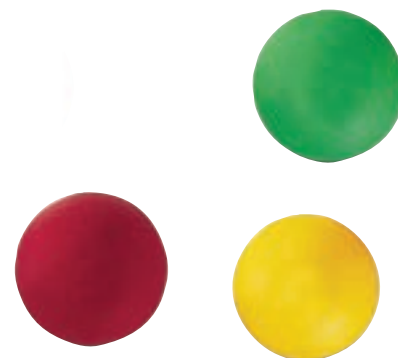

Aroma Balls - Set of 4

Scented balls that fit comfortably in the palm of the hand. Colour and scent co-ordinated. Soft, squeezable and great to manipulate for hand exercise. Perfect too for games, especially when bought in multiple sets. Includes one each of orange, rose, lemon, apple. Supplied inflated. Latex-, phtalates-, lead- and chrome-free.

R517590 5.5cm diameter

Cando® Scented Theraputty – Set of 4 tubs

Helps develop grip strength and provides a pleasant multi-sensory experience. Each set contains a tub of vanilla (XX-soft), banana (X-soft), cherry (soft) and apple (medium) putty. 50g (2oz).

R521385

Life Skills & Rehabilitation

We are reliant on good health and sound well-being, as well as on the many life skills we have learnt - and often take for granted, that help us everyday.

When our health declines or an injury compromises our daily activities, the effects are far-reaching.

This section includes a range of tools to maintain functionality, to aid recovery and to help individuals to return to their normal health and their familiar lifestyle.

Rompa® offers products for enabling, assessment and intervention such as timers, equipment for writing and activities to use different grips, develop fine motor skills and build muscle strength.

Comfort & Relationships

Baby

These dolls are soft, endearing, and each have their own unique personality. They capture attention with their expressive faces and warm gazes. Ideal for providing comfort and reassurance, they can be dressed, undressed, and are conveniently washable.

Joyk® empathy dolls resemble the feel of a real baby or child, stimulating the senses and building connections. They are especially suited for the elderly, offering comfort and security while inspiring emotional engagement and fostering meaningful human interaction.

R521863 Tom 50H cm Weight 1.5kg

R521862 Johan 65H cm Weight 1.5kg

R520340 Emelie 65H cm Weight 1.5kg

R520327 Heart 65H cm Weight 1.5kg

Newborn

Soft, soothing, and perfect for cuddling, these dolls are designed to feel incredibly lifelike with their realistic size, weight, and details. Just like a real baby, their heads need gentle support when lifted. Made with careful attention to detail, they include Velcro on the back for attaching Human Touch accessories. Each doll comes with an outfit, and can also wear regular baby clothes.

R520330 Newborn Lilly 46H cm Weight 0.8kg

R520331 Newborn Elias 46H cm Weight 0.8kg

R524110 Professionals | 10 x 21 x 10 cm 9.8 x 21.2 x 9.8 cm

Motor Skills

Inset Shape Boards

A set of three boards with colourful, easy fitting shapes. The boards are at three basic levels of difficulty, and all the shapes have a knob for easy handling.

2 shapes 24 x 11cm, 3 shapes 35 x 11cm, 4 shapes 24 x 24cm.

R513428

Rainbow Wooden Nuts and Bolts

Ideal for supporting counting whilst improving manual dexterity and fine motor strength, these beautiful solid beechwood nuts and bolts come in seven different shapes and in the seven colours of the rainbow for colour and shape recognition. Each nut has a corresponding matching bolt for pairing by colour and shape, and each shape has a different number of edges, increasing from 1 to 8. Includes cotton bag and matches the Rainbow Wooden range for extended imaginative play.

R524204 6.5cm

Sequencing Game

Test concentration, fine motor skills and hand-eye co-ordination as well as memory and communication skills. Try to put the beads in a particular order, or match colours and shapes. Includes storage box, 10 wooden playing cards, threading string and rods, 72 beads, die and instructions. Made from natural wood with non-toxic varnish. For 1-6 players, 3 years and over.

R517541 33 x 33cm

Memory Box with Locks

Help build memory skills and fine motor skills. Try to remember what's inside the 3 internal compartments and practice fastening/unfastening different locks. With 10 doors and an easy to grip handle. Koosh Ball for illustration purposes only (not included).

R521378 30L x 13W x 14H cm

Giant Colourful 'Marble' Run

Beautiful to look at - and to listen to. Encourages reaching, motor skills and tracking. Wonderful for understanding of cause and effect. Made from white maple and birch ply. Includes wooden balls. Minimal assembly required (supplied flat pack).

R520948 150H cm

Tube Trail

A single tube in a wooden tray. Easier to track than the trails with multiple tubes. Includes ten balls. Perfect for use on a floor or table. Portable. Includes 10 balls. Size: 75cmH; tray 29W x 50D x 7H cm (balls 6cm diameter).

R519736

Duo Tube Trail

A free-standing alternative to the Wall Mountable Tube Trail. Includes ten balls and a wooden tray. Great for taking turns and races! Size: 75cmH; tray 32W x 45D x 7cmH (balls 6cm diameter).

R519737 Tube Trail, Balls & Tray

R517550 Set of 3 spare balls

Tubular Trail

The six coloured balls disappear and reappear again as they travel through the ribbed transparent tubes creating a tactile rewarding vibration and auditory stimulation. This repeatable activity also encourages hand/eye co-ordination. See this product in action at www.rompa.com

R515680 54 x 23 x 37H cm

Twist Trail

The smallest Tube Trail and one of the easiest to track. Includes three balls. Size: 30L x 28H x 20D cm (balls 6cm diameter).

R519738

Track Marble Maze

Guide the marble around the track by tilting the maze with both hands. Twist. Turn, Back-up. Repeat! Curved corners and high-quality materials are additional details that make this marble maze an ideal activity for people with dementia.

R524083 30 x 21 x 2 cm

Motor Skills

Pattern Blocks

Simply need to remove all the colourful blocks from the tray and challenge themselves to fit them all back together again. A great game to help develop the strategic mind. Made from high quality, responsibly sourced materials and coated in non-toxic, child-friendly paints and lacquers. Conforms to current ASTM F963 & European safety standards. Age 3 years +.

R524113 1.3 x 18 x 18 cm

Lacing Kit

Kids can get creative lacing the different colourful shapes onto the laces. Wooden beads and laces can be kept tidy in the screw-top jar. French Knitting Doll. For little ones who love their arts & crafts here is a fantastic way for them to develop their skills. The sturdy wooden loom is ideally sized for little hands, and will provide plenty of use! Comes complete with brightly coloured yarns & a selection of essential tools.

R524376

Rainbow Wooden Keys

Chunky beechwood keys with a string key ring and natural wooden toggle to keep them together. Numbered from 0 to 10 on one side with corresponding numicon dots on the reverse with different shapes. Ideal for recognising numbers, learning to count and using in simple mathematical processes. Matches the Rainbow Wooden range, with additional keys in black, white and natural undyed wood.

R524207

Rainbow Wooden Shape Twister

Each nut shape has a different number of edges, increasing from 1 (circle) to 8 (octagon). The chunky pieces are the ideal size for young children to manipulate and come in a natural finish to show the grain of the wood. The colours match our Rainbow Wooden range for extended imaginative play.

R524205 20cm

Rainbow Fidget Slug

Twisty rainbow coloured slug for fidgety fun which helps to relieve stress, improve focus and promote decompression. Ideal for sensory and tactile experience with a colourful rainbow twist.

R524522 10cm

Spike The Fine Motor Hedgehog

Spike the Hedgehog has lost his quills and needs help to put them back! Available in blue or pink.

R524312 Blue

R524313 Pink

Spike The Fine Motor Hedgehog Puzzle Playmate

Sort and match the shapes, or explore Spike's pop-in, pop-out quills, while building skills through fun, fine motor skills play activities.

R524317

Spike The Fine Motor Hedgehog Sensory Tree House

Spike and his friends are hiding in the sensory tree house ready to play a fun game of hide and seek!

R524314

Spike The Fine Motor Hedgehog Rainbow Stackers

Stack, play, and learn with Spike the Fine Motor Hedgehog Rainbow Stacker. This colourful stacking toy offers two ways to stack - build Spike up vertically or out horizontally, strengthening fine motor skills as you go.

R524315

Spike The Fine Motor Hedgehog Fidget Friend

There are 6 ways to fidget and play with Spike the Fine Motor Hedgehog Fidget Friend. Spin the wheel, turn the crank, press the button, twist the knob, push the plunger, and move the switch.

R524316

Klickity

Push, spin, rattle, click, and discover! Push the pink bumpy ball in and the blue ball on the other side is pushed out. The green and purple knobs on either side click in and out like click-pens while the bright orange and teal ball on top spins around and around. And it's not just the sounds and movements that excite the mind - The soft-rubber tops of each ball feature unique and vivid textures that are thrilling to touch.

R524184 7" diameter

Construction

Crazy Fort

Build a unique world using the 25 geometrically precise balls and 44 sticks and just add a sheet. Connect the pieces to create a multitude of possible structures and create a princess castle, space rocket or something completely different! For those who are scared of the dark, specially designed LED lights can be purchased for Crazy Forts to provide long-lasting light in your hideout. And best of all, they turn off automatically after 20 minutes for longer battery life and are cool to touch for safe use! Cover not included.

R524307 Crazy Fort | Standard

Foam Play Building Blocks

Fun for indoor and outdoor use. Realistic appearance excellent for crashing through on scooters. Durable EVA foam. Especially effective when purchased in multiples to create larger structures.

R523119 Bricks – Set of 25 20L x 9W x 6.2H cm

R523120 Breeze Blocks – Set of 20 19.2L x 9.5W x 6.3H cm

R522707

Tri Grip Tong

Tri-Grip Tong help strengthen pencil grip skills without a pencil. Each three-prong tong features an intuitive design that mimics the finger placement required for correct pencil grip without the need for an actual pencil or pen.

R524165 9.91 x 9.91 x 11.94 cm | 120g

Thera-Band™

Approved by therapists and may be useful in rehabilitation after certain injuries. Made from natural rubber latex, phthalate-, PVC- and lead-free. The different colours represent different resistance, all the same size though can be cut and so individually adjusted to suit. Dimensions: 550L cm (in total), 15W cm.

R515364 Yellow Mini

R515365 Red Medium

R515366 Green Strong

R515367 Blue Extra Strong

Gripmaster - Set of 3

With removable soft rubber base. Develops isolated finger strength, flexibility and co-ordination as it builds hand and forearm strength. Each finger can be challenged with its own individually spring-loaded button. Finger pressure is carefully calibrated providing the therapist with a quantitative tool for evaluation. Three strengths: Blue - Easy, Red - Medium, Black - Strong. Latex-free.

R515860 9L x 7H cm

Eggsercizers - Set of 3

A tactile hand exercise device offering consistent resistance while returning to its original shape. The egg shape matches the natural contours of the hand promoting effective hand, finger and arm massage. Improves hand dexterity and flexibility, and reduces stress. Feels like putty but leaves no messy residue on hands or clothes. The solid shape has nothing inside to leak out. The Eggsercizer comes in sets of 3 each a different colour and resistance strength.

R515003 6.5L cm

Squeezy Balls - Set of 6

Offers little resistance when squeezed and quickly regains its original shape. Contains latex. Assorted colours.

R517423 7.5cm diameter

Therapy & Exercise

Putty - Set of 4

Includes a soft (yellow), light (red), medium (green) and firm (blue) tub of putty, each containing 50g (2oz). Non-toxic, latex-free and brilliant for therapy.

R521386

Stretchy Sensory Band - Pack 4

Stretch, pull and twist these sensory bangles for tactile exploration & stimulation. Vibrant colours (may vary) in a 4 pack. Diameter 13 cm when not stretched.

R524519

4 pack

Buggie

Curious creature with huge eyes and an abundance of rubbery 'hair'. Colours may vary. Size: 26cmL

R520500

Rehab Peanuts - Set of 3

Set includes one soft, one medium and one strong peanut to offer a variety of resistances. Made of latex-free polyurethane. Weight: 40g.

R518427

17.5L cm

Aggression Bat

Ideal way of releasing tension amongst those who struggle to express their frustration verbally. Cotton cover. Weight: 520g. Each. Sold individually, not as a pair.

R518992

56L x 15 cm diameter

Mini Clock

The clock is colour-coded, easy to read, helps understand telling time to the minute and hour. The hands are geared and keep the correct relationship between hour and minute as you can turn the hands on the clock face.

R523560

Teach & Learn Wooden Clock

Wooden learn and play clock game. The box includes a clock face with moving hands and a chalk panel, as well as chalk and a set of time cards.

R523556

Fun with Leisure & Outdoors

Leisure and outdoor activities offer a chance to have a break from a routine or to provide freedom from actions which we are compelled to perform.

Especially in early years children and people with various mental health or physical disabilities the choice to do what they want is often very limited, therefore making leisure time essential part of their lives.

Spending time outdoors in fresh air not only supports physical health but also fosters mental well-being, creativity, and a sense of connection with nature. For children and individuals with disabilities, this freedom to explore, play, or simply relax in an open environment can be profoundly empowering, offering a much-needed escape from constraints and routines while promoting personal growth and happiness.

Activities

Muddle Puzzle Cube

The classic puzzle returns! This puzzle cube has nine coloured squares on every face, with each row and column on a spindle that allows them to be twisted and turned to jumble up the colours. Once shuffled, the aim of the game is to rotate, shift and manipulate the cube so that the colours on each side match again. The classic three by three cube is a retro icon and a very addictive puzzle toy for all ages.

R524038 6 cm

Classic World Crocodile Balancing Game

This clever balancing game makes little ones use the colourful wooden blocks to correctly balance the friendly crocodile. A great teaching tool to aid hand eye coordination, fine motor skills and shape recognition. Suitable for children aged 3 years+. Made from natural, eco-friendly wood. Non-toxic.

R524030 23 x 3 x 11 cm

Balancing Game Kit

How high can you balance the colourful fruit? A game of skill & nerve! Features 6 types of fruit: apple, orange, pear, grapes, banana and strawberry. How high can you balance the weather symbols? A game of skill & nerve! Includes 6 weather symbols: rainbow, cloud, snowflake, raindrop, sun & lightning. Develops fine motor skills & problem-solving.

R524375

Cup Stack Challenge

Set of 12 hard plastic cups specially designed for competitive speed stacking. The set includes detailed instructions on how to put up and take down stacks of cups at high speed. Cup Stack helps build up fine motor skills and the ability to cross the midline. Colour selected at random (can come in red or blue). Each cup measures 9.5 x 7.5cm

R524029

Feelings & Emotional Puzzle Cards

Help build social emotional learning (SEL) skills with these colourful Feelings & Emotions Puzzle Cards. Each 2-piece puzzle shows a full colour photo of a real child making a facial expression on a piece, with a colourful corresponding emoji on the other piece. The puzzles are keyed differently, which means there's only one correct solution. This allows the person to self-correct and learn independently. Includes 24 puzzles in a reusable storage box with carry handle.

R523562

Mirrored Shapes

These sensory shapes add a lovely mirror sensory element to our collection. With the shapes being big enough to help aid motor skills for hands while creating a sensory environment with the reflections. These come in a pack of 4.

R523569

Mosaic

Create wonderful patterns and imaginative pictures – again and again. Can be useful for understanding geometric shapes and reflections. Includes board and 350 squares in 12 colours. Plastic. Size: board 39 x 39cm; squares 2.3 x 2.3cm

R520347 Board: 39 x 39cm | Squares: 2.3 x 2.3cm

Category Snap

Category snap is a variation on traditional snap, in that no two cards are the same. The idea is to match cards from the same family; a saw and drill match as they are both tools. However, there is no wrong way to play and players can use their imagination to make their own association games. Features: 3 x association games, 36 x cards in a pack, for 2-4 players & made from durable materials.

R524084 8 x 12 cm

Animal Snap

The traditional game of snap requires each player to place a card on the pile. When two consecutive cards of the same animal are placed down, whoever yells 'Snap' first gets the pile. The player with the most cards at the end of the game is the winner! Features: 3 x association games, 48 x cards in a pack, 2-4 players & vibrant colours support vision impairment.

R524085 8 x 12 cm

Animal Bingo

For up to 12 players. Includes 12 bingo cards, 1 CD, 1 Flip book, 128 counters (in a drawstring bag) and 1 bingo caller card. For 3 years and over (some small parts)

Size: box 26L x 27W x 7cm; counters 3.5cm diameter x 3cmH

R522070

Activities

Mirror Tray & Multicolour Gem Cubes

A beautiful play set with stunning crystal coloured gem cubes presented in a sturdy mirrored wooden tray. The cubes are made from solid acrylic, beautifully finished with smooth edges and come in 10 different colours. Size of tray: 272 x 272 x 30mm. Size of cubes: 25mm. 3+ years

R523558

Bingo Tickets

Books of tickets identical to those found in a typical bingo hall. Each pack contains over 4,000 tickets – enough to keep even the keenest bingo players happy for months!

R551182

Bingo Dabbers

Set of 12 Bingo Dabbers in assorted colours. Perfect pairing with bingo tickets for those who want to use bingo as a social activity or to aid listening. For 3 years and over.

R555841

Creative Magnetic Scene

Place the 15 magnetic pieces wherever you wish on the board. Great for adults who struggle to pick up jigsaw pieces and place them correctly as their dementia progresses. Equally valuable for conversation-prompting, improving dexterity and encouraging fine motor skills. Beautifully illustrated with age-appropriate content in small pieces. All puzzles the same size. Dimensions 36 x 25 x 0.85 cm.

R522785 The Tool Shed

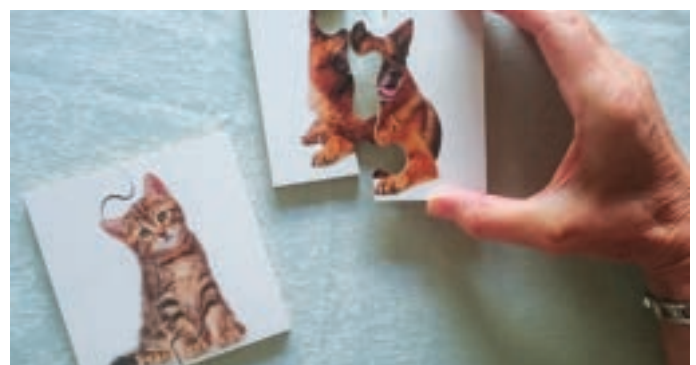

R522787 The Baking Cupboard

Mobile drawer unit with four coloured trays. Perfect for use with the Touch Set, Sounds Set and Smells Set. Facilitates the colour co-ordination of resources and activities by their main sense for ease of use. Size: 38 x 30 x 86 cm. Drawers: 35 x 24.5 x 17.5cm.

R521801 · Snoezelen Storage Sets Tower

R521810 Complete saver pack (includes Tower, Touch set, Smells set, Sights set and Sounds)

Our specialist advisors

Rompa® works closely with specialists who provide valuable insight into ensuring any Snoezelen® equipment we provide will meet the highest standards required for the needs of the users. Our specialists work independently from Rompa® but have a fantastic amount of knowledge in the field of Snoezelen® equipment and its use.

Our panel of experts is ever expanding, this way we can better produce and provide the best and most appropriate products for our users.

Trevor Cotterill

Trevor Cotterill is a Senior Lecturer in Education Studies and SEND (Special Education Needs and Disabilities), a Lecturer in Further Education Collaborations and Stage 3 Progression Leader for BA (Hons) Education Studies. Trevor has over 40 years of teaching experience in secondary schools, further education, and higher education.

Trevor's research includes SEND, including autism and ADHD (attention deficit hyperactivity disorder), professional development for practitioners working with learners with SEND, the role of neurobiology and cognition in autism, and the influence of neuroscience and learning.

Lesley Collier

Lesley Collier, Ph.D., serves as an Occupational Therapist in the Faculty of Health and Well-being at the University of Winchester.

Specialising in sensory integration and cognitive impairment, she actively engages in both national and international research initiatives focused on sensory processing and stimulation for individuals with cognitive challenges.

Lesley's expertise and leadership have significantly contributed to advancements in this field.

Fabrics and colours

PVC

The most durable and popular, of all our fabrics. Extremely hard-wearing, PVC is easy to clean, water-resistant and treated with fungicide. Latex- and Phthalate-free, this strong fabric has a polymer coating on both sides, making it rigid and helping products to maintain their shape. Our PVC has a 'cape' or subtly textured and fungicidal finish and is available in a large spectrum of colours and tones.

Polyester

Slightly warmer to the touch than PVC and more flexible. This makes Polyester best-suited to products which allow clients to sink into them and which mould to the user's shape.

Textured Fabrics

Beautiful, tactile and practical. Fire-retardant, stain-resistant, phthalate-free and REACH compliant. The fabric itself is waterproof, although seams are not due to the nature of stitching. All the colours are anti-microbial.

Faux Suede

Arguably the softest of our fabrics, and is similar in texture to suede. More akin to fabrics used in domestic furniture, this supple fabric is water-resistant, extremely comfortable, stain-resistant and antibacterial. Available in subtler shades of colour than PVC and Polyester, this fabric may be more age-appropriate for older adults. Although durable, this fabric has a short pile and is less hard-wearing than PVC. As such, it should not be chosen for areas of heavy use such as step treads or floor cushioning.

Faux Leather

Available in striking modern colours, this subtly-textured fabric is as hard wearing as it is stylish. Vibrant yet tasteful, this strong fabric is a combination of PVC, Cotton, Polyester and PU. Fire-retardant (Crib 5), Phthalate-free, anti-microbial and REACH compliant. The fabric is waterproof, although seams are not due to the nature of stitching.
